1) THE SOLE PURPOSE OF THIS INSPECTION IS TO OBTAIN MORTGAGE TITLE INSURANCE. IT IS A LOCATION OF IMPROVEMENTS AND A CURSORY CHECK FOR VIOLATIONS OR ENCROACHMENTS ONTO OR FROM THE SUBJECT PROPERTY BASED ON EXISTING BUT NOT CONFIRMED EVIDENCE.

2) THIS DOES NOT CONSTITUTE A BOUNDARY SURVEY AND IS SUBJECT TO ANY INACCURACIES THAT A SUBSECUENT BOUNDARY SURVEY MAY DISCLOSE, NO PROPERTY CORNERS HAVE BEEN SET AND IT SHOULD NOT BE USED OR RELIED UPON FOR THE ESTABLISHMENT OF ANY FENCE, STRUCTURE, OR OTHER IMPROVEMENT.

3) SETBACK VIOLATIONS AND FENCE LINES ARE NOT VERIFIED OR NOTED AS AN ENCROACHMENT.

4) DIMENSIONS ON LOT LINES ARE BASED ON RECORD OR DEED INFORMATION UNLESS NOTED.

5) NO WARRANTY IS EXTENDED THEREIN TO THE PRESENT OR FUTURE OWNER OR OCCUPANTS.

#### AMENDMENT NUMBER <u>2</u> AGREEMENT NUMBER 717396

#### **BACKGROUND:**

- On August 27, 2020, the State of South Dakota, acting by and through its Department of Transportation, referred to in this Amendment as the "STATE," and Yankton County, referred to in this Amendment as the "COUNTY," entered into an Agreement, which agreement referred to in this Amendment as "AGREEMENT," was signed by representatives of each party and assigned agreement number 717396 by the STATE; and,
- 2. The parties having previously amended the AGREEMENT wish to further extend the term of the AGREEMENT.

#### THE PARTIES MUTUALLY AGREE AS FOLLOWS:

1. Paragraph 3 of the AGREEMENT is amended to read as follows:

This Agreement is effective on the date of the letter of award attached as **Exhibit A.** The preliminary engineering work contemplated by this Agreement will be completed no later than December 31, 2025. No reimbursements will be processed by the STATE for work performed after the date of December 31, 2025.

Except as specifically modified by this Amendment, all terms and conditions of the original AGREEMENT referred to above, together with any prior amendments to such AGREEMENT, will remain in full force and effect.

The COUNTY has designated its County Commission Chairperson as the COUNTY'S authorized representative and has empowered the Chairperson with the authority to sign this Agreement on behalf of the COUNTY. A copy of the COUNTY'S Commission minutes or resolution authorizing the execution of this Agreement by the Chairperson as the COUNTY'S authorized representative is attached to this Agreement as **Exhibit N**.

This Amendment is binding upon the signatories not as individuals, but solely in their capacities as officials of their respective organizations and acknowledges proper action of the STATE and the COUNTY to enter into the same.

#### Sales Agreement TERMS AND CONDITIONS (Referred to on the Reverse Side Hereof)

- 1. Acceptance. This Agreement is subject to final acceptance by Seller in its sole discretion. Seller reserves the right to accept or reject this Agreement and shall not be required to give any reason for non-acceptance. This Agreement, when accepted by Seller, shall become a binding contract but shall be subject to strike, lock-outs, accidents, fire, delays in manufacture or transportation, acts of God, embargos, or governmental or administrative action or any other causes beyond the control of Seller whether the same as or different from the matters and things herein before specifically enumerated, and any of said causes shall absolutely absolve Seller from any liability to Purchaser under the terms hereof. Seller's acceptance of this Agreement shall be limited to the express terms and conditions set forth herein.
- 2. Security Interest. Unless the equipment covered hereby (the "Equipment") is paid for in full in cash at time of delivery, Purchaser grants and Seller retains a continuing security interest in the Equipment in accordance with the Uniform Commercial Code ("UCC"), together with all and any substitutions, additions or accessions, and in any and all proceeds from the use, sale, exchange or disposal thereof. Purchaser authorizes Seller at any time to file in any relevant jurisdiction any financing statements as provided by the UCC relating to the Equipment for the purpose of perfecting, confirming, continuing, enforcing or protecting its security interest in the Equipment. Purchaser further agrees to execute and deliver to Seller any other promissory notes or evidences of indebtedness that may be requested by Seller. However, any such note shall be evidence of indebtedness only and is not to be considered or construed to be payment for said Equipment.
- 3. Taxes. Purchaser will promptly pay to Seller any taxes that Seller is required to collect with respect to this Agreement including, but not limited to, sales, use, value added, personal property and similar taxes ("Taxes"). For any Taxes from which Purchaser claims exemption, Purchaser shall provide Seller with properly completed exemption certificates and any documentation needed to validate the exemption. If Purchaser fails to provide an appropriate exemption certificate and supporting documentation, as determined by Seller, Purchaser will remain liable for all such Taxes and will indemnify Seller for any liability related to the same.
- 4. Risk of Loss/Delivery. Seller's responsibility and liability for the Equipment ceases upon delivery of the Equipment to Purchaser or to a carrier for shipment to Purchaser and Purchaser shall bear the risk of loss at such point, including, but not limited to, any claims for damages, delays or shortages occurring thereafter, all of which shall be made by the Purchaser directly to the carrier. Purchaser shall make any claims against the Seller within fifteen days after delivery. At the time of delivery, Purchaser shall be required to execute a Delivery and Acceptance Certificate. Purchaser agrees that any apparent agent at the point of delivery is authorized to accept delivery of the Equipment and execute the Delivery and Acceptance Certificate.
- 5. Insurance. If the Equipment is not paid for in full at time of delivery, Purchaser shall, at Purchaser's cost, keep the Equipment insured against all risks and perils customarily covered under "all risk" policies including, but not limited to, loss or damage by theft, vandalism, malicious mischief, fire, flood, windstorm, and explosion, and with an extended coverage endorsement covering all such other risks and perils in an amount satisfactory to Seller in which Seller is named as a loss payee, and shall furnish proof of such coverage satisfactory to Seller, which shall not be cancellable without thirty day's written notice to Seller.
- 6. Purchaser's Representations and Warranties. To induce Seller to enter into this Agreement, Purchaser represents, warrants and covenants as follows: (a) if Purchaser is a corporation, limited liability company, limited liability partnership or similar entity, then it is duly organized, existing and in good standing under the laws of the state of its incorporation or organization and it has full power and authority to enter into this Agreement and the execution, delivery and performance of this has been duly authorized; (b) if Purchaser is a general partnership, then it has full power and authority to enter into this Agreement and the execution, delivery and performance of this Agreement has been duly authorized by all of the partners of the partnership; (c) if Purchaser is an individual, then he or she has full power and authority to enter into this Agreement; (d) this Agreement has been duly entered into and delivered and constitutes a legal, valid and binding obligation of Purchaser enforceable in accordance with its terms; and (e) all financial statements, certificates or other information submitted to Seller concerning Purchaser's financial condition, are in all respects accurate, true and complete.
- 7. Events of Default. Purchaser will be in default under this Agreement, without necessity for demand or notice, if any one or more of the following occurs before the Equipment is paid for in full: (a) if Purchaser fails to accept delivery of any of the Equipment; (b) Purchaser fails to make a payment when due; (c) if the Equipment is levied on, seized or attached; (d) if Purchaser sells or disposes of any of the Equipment without Seller's permission; (e) if any default shall occur under any other agreement between Seller and Purchaser; (f) any individual Purchaser dies or is declared incompetent; (g) any Purchaser who is a legal entity merges, dissolves, reorganizes, or terminates its business or existence; (h) Purchaser fails to keep any promise, representation or warranty contained in this Agreement; (i) Purchaser becomes insolvent, is generally unable to pay its debts when due, dissolves, assigns its assets for the benefit of its creditors, or becomes the subject of a bankruptcy, receivership, or insolvency proceeding; (j) Purchaser sells all or substantially all of its assets or property; (k) Purchaser shall suffer a material adverse change in its financial condition or operations; or (I) any other event occurs or fact appears that causes Seller to deem itself insecure, or impairs the prospect of payment or realization upon the collateral.
- 8. Remedies. In the event of a Default, Seller may, at its option, exercise any or all of the following rights and remedies, all of which shall be cumulative to the greatest extent permitted by applicable law; (a) if the default results from Purchaser's failure to do or perform any of the acts, or things required to be done by Purchaser under the terms of this Agreement, Seller may do and perform any such acts on the Purchaser's behalf, and all money advanced or paid by Seller in doing so shall be added to and be deemed a part of the balance due hereunder; (b) Seller may terminate this Agreement; (c) Seller may exercise any and all rights Seller may have under the Uniform Commercial Code or other applicable law; (d) Seller may require Purchaser to store the Equipment, at Purchaser's own cost and risk, on behalf of Seller, and such storage shall be in such a manner as to prevent any deterioration of the Equipment, and shall be for a reasonable time pending the sale or other disposition of the Equipment. In the event Seller seeks to take possession of any or all of the Equipment by court process, Purchaser further irrevocably waives to the fullest extent permitted by law any bonds and any surety or security relating thereto required by any statute, court rule or otherwise as an incident to such possession and said retaking shall not be deemed rescission of this Agreement. Waiver by Seller of any Default shall not be deemed a waiver of any other Default. Purchaser agrees to pay all collection and repossession costs, reasonable attorneys' fees, legal expenses and court costs incurred by Seller in connection any Default or otherwise enforcing this Agreement.
- 9. LIABILITY LIMITATION. PURCHASER AGREES THAT PURCHASER'S SOLE AND EXCLUSIVE REMEDY AGAINST SELLER SHALL BE AS CONTAINED IN ANY EXPRESS WRITTEN WARRANTY ISSUED BY SELLER, IF ANY. IN NO EVENT SHALL SELLER, WHETHER BASED IN CONTRACT, WARRANTY, INDEMNITY, TORT, STRICT LIABILITY OR ANY OTHER THEORY OF LAW OR EQUITY, BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, EXEMPLARY OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOST PROFITS, LOSS OF USE OF PROPERTY OR EQUIPMENT, DOWNTIME, LOSS OF THIRD PARTY CONTRACTS OR LOST CROP OR OTHER PRODUCTION, REGARDLESS OF WHETHER SELLER WAS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN ADDITION, SELLER'S MAXIMUM AGGREGATE LIABILITY (WHETHER IN CONTRACT, WARRANTY, INDEMNITY, TORT, STRICT LIABILITY OR ANY OTHER THEORY OF LAW OR EQUITY) FOR DAMAGES OR LOSS, SHALL IN NO EVENT EXCEED THE AMOUNT PURCHASER PAID TO SELLER FOR THE EQUIPMENT TO WHICH THE LIABILITY RELATES, PURCHASER RECOGNIZES THAT THE PRICING ASSOCIATED WITH FOUIPMENT REFLECTS THIS ALLOCATION OF RISK AND IS THE BASIS OF THE BARGAIN BETWEEN THE PARTIES. THE FOREGOING LIMITATIONS SHALL BE VALID AND ENFORCEABLE. NOTWITHSTANDING ANY ALLEGED FAILURE OF ESSENTIAL PURPOSE OF THE LIMITED REMEDIES SET FORTH HEREIN, ANY AND ALL CLAIMS ARISING OUT OF OR RELATING TO THE EQUIPMENT WILL BE BARRED UNLESS A LEGAL PROCEEDING IS COMMENCED WITHIN ONE (1) YEAR FROM DELIVERY OF THE EQUIPMENT TO PURCHASER.
- 10. Used Equipment Warranty. The terms and conditions of any used equipment warranty provided by Seller shall be as set forth in a separate written "Used Protection Plan" executed by Seller and Purchaser and shall be subject to the following additional terms: (a) the cost, if any, of transporting said used machine from and to the Seller's place of business shall be paid by the Purchaser; (b) any such used equipment is void unless claim is made by Purchaser to Seller within three (3) days after discovery of the defect upon which the claim is based; and (c) Seller shall only be obligated to make warranty repairs during regular working hours at regular time labor rates. If, at the request of Purchaser, such warranty repairs are performed during overtime hours, Purchaser shall pay the difference between the applicable overtime rates and Seller's regular time rates.
- 11. Indemnification. Purchaser shall defend, indemnify and hold harmless Seller, its subsidiary and affiliated companies, their officers, agents and employees, from and against all loss liability, claim, action or expense including reasonable attorney's fees by reason of bodily injury including death, and property damage, sustained by any person or persons including, but not limited to, employees of Purchaser, as a result of Purchaser's maintenance, ownership, use, operation, storage, erection, dismantling, servicing or transportation of Equipment or Purchaser's failure to comply with the terms and conditions of this Agreement.
- 12. Waivers. Any forbearance, failure or delay by Seller in the exercise of any right, power or remedy hereunder shall not be deemed to be a waiver of any such right, power or remedy, and any single or partial exercise of any right, power or remedy shall not preclude the further exercise thereof. Every right, power and remedy of Seller shall continue in full force and effect until such right, power or remedy is specifically waived in writing by
- 13. General. It is agreed that (a) time is of the essence; (b) Seller may assign this Agreement to any of its affiliated entities without prior notice to Purchaser; (c) Purchaser may not assign this Agreement without Seller's consent, which may be withheld at Seller's sole discretion; (d) this Agreement constitutes the entire agreement between Purchaser and Seller in respect to the Equipment and it is expressly agreed that there are no promises or understandings outside of this Agreement and that no agent or salesperson has authority to obligate Seller to any undertakings, conditions or terms not contained herein; (e) this Agreement and all matters relating to the Equipment shall be governed by the laws of North Dakota; (f) this Agreement may be signed by facsimile, PDF, DocuSign or other electronic means and such signatures shall be as binding on the party providing the same as original signatures; (g) should any portion of this Agreement be declared invalid under applicable law or regulation, the remaining provision hereof shall remain in full force and effect.
- 14. DATA SHARING, CUSTOMER DATA MAY BE COLLECTED AND TRANSMITTED TO CATERPILLAR INC., AGCO, OTHER MANUFACTURING PARTNERS, THEIR AFFILIATES AND/OR ITS DEALERS, INCLUDING SELLER, BY EXECUTING THIS AGREEMENT, CUSTOMER ACKNOWLEDGES RECEIPT AND REVIEW OF (A) BUTLER MACHINERY COMPANY'S DATA AND PRIVACY POLICY INCORPORATED HEREIN BY REFERENCE AND AVAILABLE AT https://www.buttermachinery.com/privacy-policy; (B) THE CATERPILLAR INC. - 15. Emissions. Purchaser represents and warrants that the Trade In Equipment meets all required state and federal emission qualifications and has not been modified.
- 16. Trade-In Equipment. In connection with the Sales Agreement, Purchaser proposed to sell to Seller certain "Trade-In Equipment" identified therein, in exchange for a credit in the amount of value set forth therein or to-be-set forth therein (less payoffs of all claims, liens, mortgages and security interests encumbering the same), which value has been or will be determined based on the Surveyed Condition (defined below), to be applied toward the purchase price for the Equipment Ordered/Purchased to be sold by Seller to Purchaser pursuant to the Sales Agreement, all subject to the terms and conditions of the Sales Agreement and this Rider. Seller has had or will have the "Trade-In Equipment" surveyed by an employee or agent of Seller to determine, among other things, the assumed condition and hours of the Trade-In Equipment (and all components thereof) (the "Surveyed Condition") that are assumed for the anticipated date of Seller's taking delivery of the Trade-In Equipment from Purchaser, which will be the same date anticipated for Seller's delivery of the Equipment Ordered/Purchased to Purchaser. The Surveyed Condition forms the basis of Seller's determination of the trade-in value (and a material inducement for Seller offering the same). To receive a copy of the images utilized in establishing the trade in equipment's valuation, please contact your Butler Machinery salesperson. If Seller (in its commercially reasonable judgment) determines at any time that actual condition of the Trade-In Equipment (whether as of the actual date of Seller's taking delivery of the Trade-In Equipment or any time prior thereto) deviates or will deviate from the Surveyed Condition in any material respect (a "Material Deviation"), then the trade-in value shall be reduced by the amount determined by Seller in its commercially reasonable judgment to represent the diminishment in the trade-in value of the Trade-In Equipment as a result of such Material Deviation(s); provided, if Seller determines that such Material Deviation(s) renders the Trade-in Equipment unsellable, unsalvageable or otherwise valueless to Seller, results in a trade-in-value less than the amounts necessary to payoff all claims, liens, mortgages and security interests encumbering the same, or could result in any potential loss or liability to Seller of any kind or amount, then, in any such case, Seller may elect to not purchase the Trade-In Equipment (and Purchaser shall retain possession of the same). "Material Deviation(s)" may include, by way of example and without limitation, any one or more of the following conditions or occurrences: any increase in hours, or any wear or tear (including ordinary wear or tear), damage, casualty or any other loss, or impairment in the performance, legal compliance or value of the Trade-In Equipment. Purchaser shall promptly notify Seller of any Material Deviation caused by or known to Purchaser. Purchaser shall remain obligated to purchase the Equipment Ordered/Purchased pursuant to the Sales Agreement notwithstanding any reduction in trade-in value (or election to not purchase the Trade-in Equipment) as a result of any such Material Deviation(s). Further, if, as of the time of a determination of a Material Deviation, Seller has previously credited to Purchaser (or paid to creditors on Purchaser's behalf) any amount of the trade-in value initially established based on the Surveyed Condition in excess of the reduced trade-in value resulting from such Material Deviation(s), then Purchaser shall immediately reimburse Seller for the total amount of such excess previously paid or credited by Seller.

## **DEFINITIONS**

# **Definitions**

For the purpose of this Ordinance, unless otherwise stated, words used in the present tense include the future; the singular number includes the plural and the plural the singular; the word shall means mandatory, not discretionary; the word <u>may</u> is permissive; the word <u>person</u> includes a firm, association, organization, partnership, trust, company or corporation, as well as, an individual; the word <u>lot</u> includes the word <u>plat</u> or <u>parcel</u>; and the words <u>used</u> or <u>occupied</u> include the words intended, designed, or arranged to be used or occupied.

# **Terms**

For the purpose of this Ordinance, certain terms or words used herein shall be interpreted as follows: (Amended June 21, 2022)

<u>Abandoned Sign/Billboard</u> - a sign or sign structure that is blank, obliterated or displays obsolete advertising material for a period in excess of twelve continuous months. The twelve-month period for determining if a sign is abandoned commences upon notification of violation to the offender.

<u>Abut</u> - Having a common border with, or being separated from such a common border by a right-of-way, alley, or easement.

<u>Accessory Agricultural Structure</u> - A structure customarily incidental and necessary to farming and the raising of animals including barns and other animal shelters, corrals and fences, silos and storage sheds for machinery and crops.

Accessory Building - A subordinate building, the use of which is purely incidental to the main building. It shall be unlawful for any person, firm, or corporation in the following Yankton County Zoning Districts: Low Density Rural Residential (R1), Moderate Density Rural Residential (R2), High Density Rural Residential (R3), Manufactured Home Park (MHP), Lakeside Commercial (LC), Rural Transitional (RT), Planned Unit Development (PUD) to use any van body, truck body, semi-trailer, rail car, "shipping crate", and/or any vehicle no longer used for its manufactured purpose as a storage shed, storage building, warehouse, or as living quarters. It shall be unlawful to use manufactured homes for any use other than residential living quarters in all Yankton County Zoning Districts. However, this shall not prevent the lawful parking of vehicles properly licensed, insured, and in regular use for their intended purpose to include 'RVs' and camping trailers. (Amended May 19, 2020)

<u>Accessory Use or Structure</u> - A use or structure on the same lot with and of a nature customarily incidental and subordinate to the principal use or structure. It shall be unlawful for any person, firm, or corporation in the following Yankton County Zoning Districts: Low Density Rural Residential (R1), Moderate Density Rural Residential (R2), High Density Rural Residential (R3),

Manufactured Home Park (MHP), Lakeside Commercial (LC), Rural Transitional (RT), Planned Unit Development (PUD) to use any van body, truck body, semi-trailer, rail car, "shipping crate", and/or any vehicle no longer used for its manufactured purpose as a storage shed, storage building, warehouse, or as living quarters. It shall be unlawful to use manufactured homes for any use other than residential living quarters in all Yankton County Zoning Districts. However, this shall not prevent the lawful parking of vehicles properly licensed, insured, and in regular use for their intended purpose to include 'RVs' and camping trailers.

<u>Actual Construction</u> - Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially commenced, preparatory to building, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

<u>Addition</u> - Any construction that increases the size of a building such as a porch, attached garage or carport, or a new room.

<u>Administrative Review</u> - A process brought forth by the Zoning Administrator to clarify a provision of the Zoning Ordinance. A review may include policy interpretation or procedural questions but shall not include the appeals process as detailed herein.

<u>Adult Entertainment</u> - Any premises or part thereof in which a principal feature or characteristic is the nudity or partial nudity of any person; to include a place or part thereof where, in pursuance of a trade, calling, business or occupation, goods or services appealing to or designed to appeal to erotic or sexual appetites or inclinations.

<u>Advertising Sign</u> - An advertising sign, billboard, or poster panel which directs attention to a business, commodity, service, or entertainment not exclusively related to the premises where such advertising sign is located or to which it is affixed, but does not include those business signs which direct attention to the business on the premises to a brand name of a product or commodity with which the business is specifically identified and which is sold on the premises.

<u>Agriculture</u> - The planting, cultivating, harvesting and storage of grains, hay or plants, fruits, or vineyards along with the raising and feeding of livestock and/or poultry shall be considered an agricultural use. Grain elevators or Agricultural Product Processing Facilities shall not be considered an agricultural use if such use constitutes the main or principal use on a lot or parcel.

<u>Agribusiness</u> - A business which directly supports the agricultural industry, such as suppliers of feed, seed, chemicals, fertilizer, farm equipment, and equipment parts, farm equipment repair services, veterinary services, drain tile installers, and commercial grain elevators. (**Amended August 19, 2021**)

<u>Agriculture Product Processing Facility</u> - A business activity customarily designed to process raw agricultural products into value added products. Agricultural processing facilities include, but are not limited to; feed mills, ethanol plants, soybean processing facilities, cheese plants, milk processors, packing plants and rendering facilities.

<u>Agrivoltaics</u> - The use of land for both agriculture (crop production, livestock grazing and pollinator habitat) and solar photovoltaic energy generation. This is located underneath solar panels and/or between rows of solar panels. (**Amended December 19, 2023**)

<u>Aggrieved Person</u> - A person aggrieved is any person directly interested in the outcome of and aggrieved by a decision or action or failure to act regarding a zoning decision thus: (**Amended August 19, 2021**)

- 1. Establishes that the person suffered an injury, an invasion of a legally protected interest that is both concrete and particularized, and actual or imminent, not conjectural or hypothetical;
- 2. Shows that a causal connection exists between the person's injury and the conduct of which the person complains. The causal connection is satisfied if the injury is fairly traceable to the challenged action, and not the result of the independent action of any third party not before the court; (3) Shows it is likely, and not merely speculative, that the injury will be redressed by a favorable decision, and; (4) Shows that the injury is unique or different from those injuries suffered by the public in general.

Alley - A way which affords only a secondary means of access to abutting property.

<u>Amendment</u> - A change in the wording or substance of this ordinance or a change in the boundaries or classifications upon the Official Zoning Map.

<u>Amusement Park</u> - A facility, primarily outdoors, that may include structures and buildings, where there are various devices for entertainment including rides, booths for the conduct of games or sale of items, buildings for shows and entertainment and restaurants and souvenir sales.

<u>Animal Feeding Operation</u> - An animal feeding operation is a lot or facility where 200 or greater animal units, excluding aquaculture, are confined, stabled, fed, or maintained in either an open or housed lot for a total of 45 days or more in any 12-month period. The open lot does not sustain crops, vegetation, forage growth, or post-harvest residues in the normal growing season. Two or more facilities under common ownership are a single animal operation if they adjoin each other (within one mile), or if they use a common area or system for the disposal of manure. (**Amended August 19, 2021**)

For the purposes of these regulations, Animal Feeding Operations are divided into the following classes:

Class	Animal Units
Class A	<u>500</u> - 10,000
Class B	200 – 499

Animal Feeding Operation or CAFO, New - An animal feeding operation or CAFO, (see definitions), constructed after the effective date of this ordinance or any subsequent amendment of applicable Articles or Sections. Operations in existence upon adoption or prior to future amendments may be considered a new operation if the facility is expanded to facilitate an increase of more than three hundred (300) animal units. Any new construction relating to an expansion must comply with the applicable performance standards. The Planning Commission and Board of Adjustment shall have the authority to decrease or waive any standard deemed contradictory to the intent of the zoning ordinance upon review and in accordance with the conditional use and variance process described herein. (Amended May 19, 2020)

<u>Animal Units</u> - A unit of measure for livestock equated as follows; one head is equivalent to animal units: (Amended August 19, 2021)

Cow, feeder, or slaughter beef animal, including cow/calf pairs	1.0 A.U.
Horse	2.0 A.U.
Mature dairy cattle, excluding dairy calves under 300 pounds	1.4 A.U.
Farrow-to-finish sows	3.7 A.U.
Swine in a production unit	0.47 A.U.
Nursery swine less than 55 pounds	0.1 A.U.
Finisher swine over 55 pounds	0.4 A.U.
Sheep or lambs, goats	0.1 A.U.
Laying hens or broilers	0.033 A.U.
Ducks and/or geese	0.2 A.U.
Turkeys	0.018 A.U.

<u>Animal Waste Facility</u> - A structure designed and constructed to store and/or process animal waste. Animal waste facilities include but are not limited to holding basins, lagoons, pits and slurry stores.

<u>Apartment</u> - A portion of a multiple dwelling used as a separate housing unit and having cooking facilities and a private bath.

<u>Sign, Ground and Monument</u> - An exterior sign permanently attached to the ground to identify churches, schools, institutional, and public uses. Said sign may also identify a specific neighborhood by displaying the name of the tract. Ground and monument signs:

- 1. Are generally constructed of concrete or other masonry material;
- 2. Shall not exceed twenty (20) feet in height above the mean right-of-way centerline or grade;
- 3. Shall meet a minimum of one-half (½) of the yard requirements for the district in which it is located; and
- 4. Shall not exceed one hundred (100) square feet on one (1) side or two hundred (200) square feet on all sides of any one (1) premise.

<u>Sign, Mounted Wall</u> - A sign, which has a maximum area of one hundred (100) square feet, that is attached to or erected against a wall of a building and shall project no more than twelve (12) inches from the wall of the building. Said sign is intended to be read from directly in front of the face of the building.

<u>Sign, Name and Address Plate</u> - A sign, which has a maximum area of two (2) square feet, that is affixed to the side of a building informing the public as to the residents, occupation, and/or address of the building.

<u>Sign, Off-Site</u> - A sign other than an on-site sign. Off-site signs are conventionally know as billboards regardless of size.

Sign, Portable - Any sign, which has a maximum area of twenty (20) square feet, not permanently attached to the ground or other permanent structure, or a sign designed to be transported, including, but not limited to, signs designed to be transported by means of wheels; signs converted to A or T-frames; menu and sandwich board signs. Signs attached to or painted on vehicles parked and visible from the public right-of-way shall not be included in this definition and shall be prohibited unless said vehicle is used in normal day-to-day operations of the business. Said sign is intended to be displayed for a limited period of time.

Sign, Projecting - Any sign, which has a maximum area of one hundred (100) square feet, that is affixed to a building or wall in such a manner that its face is perpendicular to the face of the building and the sign extends more than twelve (12) inches beyond the surface of such building or wall.

<u>Sign, Real Estate</u> - An exterior sign for the purpose of advertising the sale, rental, lease of real property. Said sign is located on the premises for sale, rental, or lease and shall be of a temporary

nature and shall have a maximum area of four (4) square feet except in the Commercial, Highway Commercial, or Industrial Districts where the maximum area shall be thirty-two (32) square feet.

<u>Sign, Roof</u> - Any sign, which has maximum area of three hundred (300) square feet that is erected upon, against, or directly above a roof or on top of the parapet of a building.

<u>Small Wind Energy Conversion System</u> - shall mean a wind energy conversion system consisting of a Horizontal-Axis Wind Turbine (HAWT), a Vertical-Axis Wind Turbine (VAWT), which may include a tower, and associated control or conversion electronics, which has a rated capacity of less than 50 kWh and which is primarily intended to reduce on-site consumption of utility power.

<u>Solar Energy</u> - Radiant energy received from the sun that can be collected in the form of heat or light by a solar collector. (**Amended December 19, 2023**)

<u>Solar Energy Conversion System</u> - Solar energy conversion systems are any combination of solar panels on a parcel of property (**Amended December 19, 2023**)

Start of construction - includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or are not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building. (Amended August 19, 2021)

<u>Street</u> - A right-of-way established by a recorded plat to provide the primary means of access to abutting property. The term shall also include the term "road" or other similar means of conveyance or access.

<u>Street Line</u> - The right-of-way line of a street.

<u>Street, Arterial</u> - A public street or highway intended to be used primarily for fast or heavy through traffic.

<u>Structure</u> - Anything constructed or erected which requires location on the ground, or attached to something having a fixed location on the ground. Among other things, structures include, but are

not limited to, buildings and manufactured homes. This definition does not include semi-portable agricultural structures.

<u>Structural Alterations</u> - Any change in the supporting members of a structure such as bearing walls, columns, beams or girders, foundations and poles. See Building, Alterations of.

<u>Substations</u> - shall mean any electrical facility to convert electricity <del>produced by wind turbines</del> to a voltage greater than 35,000 KV for interconnection with high voltage transmission lines.

Swine Production Unit - An operation confining a specific number of female breeding age swine for the purpose of farrowing. The operation shall farrow no more than an average of one-third (1/3) of the total herd at any one time and the total herd shall not farrow more than an average of two and one-half (2 ½) times within a twelve month period. All farrowed swine shall be relocated to an off-site nursery facility, as defined by this ordinance, at approximately ten (10) pounds or said swine shall be calculated as part of the total animal units.

<u>Tank Farm</u> - A facility having two or more storage containers for the transfer of inorganic liquids or gases and from which wholesale sales of fuel to the public is or may be conducted.

<u>Temporary Construction Facilities</u> - Parcels of land or structures where construction or mining support facilities are constructed or placed at or near a job site to provide materials and support mechanisms for construction or mining projects. The term shall include but is not limited to portable offices, signage, trailers, stationary and mobile equipment, and scales. Common uses include portable concrete, processing, or asphalt plants, job site trailers, and areas for equipment parking, material storage or stockpiling. The term temporary shall be flexible yet is generally tied to a related construction project with defined start-up and completion times.

<u>Temporary Signs</u> - Signs and sign structures that are temporary in nature used in conjunction with a specific event, that are placed or erected in such a manner to be easily removed from the property and are not permanently affixed. All political signs shall be considered temporary signs. Temporary signs shall not exceed 32 square feet in size.

<u>Thrift Shop</u> - A shop operated by a charitable organization, which sells, donated used merchandise only. All such merchandise shall be displayed and/or stored in an enclosed building.

<u>Tower</u> - A structure situated on a nonresidential site that is intended for transmitting or receiving television, radio, or telephone communications, excluding those used exclusively for governmental dispatch communications.

<u>Traffic Visibility Triangle</u> - The triangular space formed by the right-of-way lines of a corner lot and driveways with a line drawn from a point in one right-of-way line to a point in the other right-of-way line, each such point being thirty (30) feet from the point of intersection of the right-of-way lines (measured along the right-of-ways lines). Where the two (2) right-of-way lines do not intersect at a point, the point of intersection of the right-of-way lines shall be deemed to be the intersection of the projection of the right-of-way lines or the intersection of the tangents to

the right-of-way lines. In the case of arterial highways intersecting with other arterial highways or railways, the distances establishing the sight triangle shall be increased to fifty (50) feet.

Trailer Park - This definition shall include the following existing trailer courts or parks:

- 1. Country Acres, legally described as LT C exc LTS H2 & all LT D lane's S/D;
- 2. Country Liven', legally described as Lot A NE4 SW4 10-93-55;
- 3. Country View, legally described as LT A & S2 LT B & W30' N2 NE4 NE4 16-93-55;
- 4. Sunrise, legally described as Parcel C LT 2 NE4 less LTS H1 & H2 16-93-55;
- 5. Hansen's Court, legally described as LT D N2 NE4 NE4 less Lot H1 16-93-55;
- 6. Lakeside Court, legally described as Lakeside SE4 SE4 (10.66 A) 16-93-56;
- 7. Crosley Court, legally described as Lot 4 truck/trailer S/D 15-93-55;

- 8. Blue Shak Rentals, legally described as Vera Van Epps Add'n exc Lot H1 & H2 SW4 NW4 (2.47 a) 3-93-55;
- 9. Marquardts Trail Acres, legally described as Lots 2–4 trail acres Lot G of Gov LT 1 1- 93-55;
- 10. Lakeview, legally described as LTS F1 & F2 Fitzgerald Park & E6' W150' orig. Fitzgerald Park 17-93-56;
- 11. Black Walnut, legally described as N2 N2 NE4 exc Parcels 17-93-56;
- 12. Shreve's, legally described as Parcel A LT 5 NW4 SE4 3-93-55;
- 13. Eastwinds, legally described as Blk 1 Edna's Add'n & Par A W2 SW4 SE4 10-93-55;
- 14. Country Manor Estates, legally described as LT 2, ex W170' & NW4 NW4 exc E417.4' & S417.4' W482.2' S220' N578.7' & Parcel C exc W170' NW4 NW4 16-93-55; and
- 15. Larson's Landing, legally described as E2 LT 2 Shore Acres 27-93-56.

<u>Transmission Line</u> - shall mean the electrical power lines that carry voltages of at least 69,000 volts (69 KV) and are primarily used to carry electric energy over medium to long distances rather than directly interconnecting and supplying electric energy to retail customers.

<u>Travel Trailer</u> - A moveable vehicle with wheels designed or used as living and sleeping quarters or for recreation or business purposes, and such vehicles that have not had the wheels removed. Including campers, recreation vehicles, and trailer coaches.

<u>Truck or Equipment Terminal</u> - A building, structure or place where six (6) or more commercially licensed trucks are rented, leased, kept for hire, stored, or parked for compensation, or from which trucks or transports, stored or parked on the property, are dispatched for hire as common carriers, and which may include warehouse space.

<u>Use</u> - Use shall mean the purpose for which a lot or a building or structure, or any portion thereof, is designed, arranged, intended, occupies, or maintained, and "used" shall have a corresponding meaning.

<u>Utility</u> - shall mean any entity engaged in this state in the generation, transmission or distribution of electric energy including, but not limited to, a private investor owned utility, cooperatively owned utility, and a public or municipality utility.

<u>Utility Facilities</u> - Any above-ground structures or facilities, other than buildings, unless such buildings are used as storage incidental to the operation of such structures or facilities, owned by a governmental entity, a nonprofit organization, a corporation, a private citizen, or any entity defined as a public utility for any purpose and used in connection with the production,

generation, transmission, delivery, collection, or storage of water, sewage, electricity, gas, oil, or electronic signals. (Amended August 19, 2021)

<u>Variance</u> - A variance is a relaxation of the terms of the zoning ordinance where such variance will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the actions of the applicant, a literal enforcement of the ordinance would result in unnecessary and undue hardship. As used in this ordinance, a variance is authorized only for area and size of structure or size of yards and open spaces; establishment or expansion of a use otherwise prohibited shall not be allowed by variance, nor shall a variance be granted because of the presence of nonconformities in the zoning district or uses in an adjoining district or because of conditions created by the landowner.

<u>Veterinary Clinic</u> - A building or part of a building used for the care, diagnosis, and treatment of sick, ailing, infirm, or injured animals, and those who are in need of medical or surgical attention. Such clinics may or may not provide long-term lodging for ill or unwanted animals, or lodging for healthy animals on a fee basis. No outside runs, pens, or facilities shall be permitted.

<u>Veterinary Service</u> - Shall be defined as a veterinary clinic except that outside pens and runs are allowed.

<u>Video Rental Shop</u> - The use of land, building or structure for the purpose of renting video cassette recorders and/or video disc players and/or the rental of video tapes and/or discs.

<u>Vision Clearance</u> - An unoccupied triangular space at the intersection of right-of-ways with other right-of-ways or at the intersection of right-of-ways with railroads. See Traffic Visibility Triangle.

<u>Warehouse</u> - A building or part of a building used for the storage and distribution of goods, wares, merchandise, substances, or articles and may include facilities for a wholesale or retail commercial outlet, but shall not include facilities for a truck or transport terminal or yard.

<u>WECS Total Height</u> - shall mean the highest point, above ground level, reached by a rotor tip or any other part of the Small or Large Wind Energy Conversion System.

<u>WECS Tower</u> - shall mean the vertical structures that support the electrical, rotor blades, or meteorological equipment of the Small or Large Wind Energy Conversion System.

<u>Wholesale</u> - The sale of commodities to retailers or jobbers and shall include the sale of commodities for the purpose of carrying on any trade or business even if the said trade of business is the consumer or end user of the commodity.

<u>Wind Energy System</u> A structure or place, such as a wind turbine, designed and constructed to generate power for distribution to off-site users. This definition shall not include private facilities with a single tower or turbine less than seventy five (75) feet in height and not designed for distribution of power to off-site users.

<u>Wind Turbines</u> - shall mean any piece of electrical generating equipment that converts the kinetic energy of blowing wind into electrical energy using airfoils or similar devices to capture the wind.

<u>Windbreak</u> - Any non-opaque manmade structure constructed of any material and erected adjacent to an animal feeding, calving, or other such lot of which its principal use is that of protecting livestock from the effects of the wind.

<u>Written certification</u> - a document dated and signed by a practitioner, stating that in the practitioner's professional opinion the patient is likely to receive therapeutic or palliative benefit from the medical use of cannabis to treat or alleviate the patient's debilitating medical condition or symptom associated with the debilitating medical condition. This document shall affirm that it is made in the course of a bona fide practitioner-patient relationship and shall specify the qualifying patient's debilitating medical condition. (**Amended November 4, 2021**)

<u>Yard</u> - An open space at grade, other than a court or plaza, between a structure and the adjacent lot lines, unoccupied and unobstructed by any portion of a structure from the ground upward.

<u>Yard</u>, <u>Front</u> - An open, unoccupied space on a lot facing a right-of-way and extending across the front of the lot between the side lot lines; measured from the road right-of-way to the structure.

<u>Yard, Rear</u> - An open, unoccupied space extending across the rear of a lot from one side lot line to the other side lot line.

<u>Yard</u>, <u>Side</u> - An open, unoccupied space on the same lot with a building situated between the building and sideline of the lot and extending through from the front yard to the required rear yard. Any lot line not the rear line or a front line shall be deemed a sideline.

Zero Lot-Line - A common lot line on which a wall of a structure may be constructed. (Amended October 18, 2022)

Zero Lot-Line Structure - A multi-family dwelling located on a single lot line that is (a) constructed as one (1) unit, (b) but is intended to be sold as separate sites and (c) otherwise meets all requirements of the zone in which it is located. (Amended October 18, 2022)

<u>Zone</u> - An area within which, in accordance with the provisions of this Ordinance, certain uses of lands, buildings, and structures are permitted and certain others are prohibited, where yards and other open spaces are required, where lot areas, building height limits, and other requirements are established, all of the foregoing being identical for the zone and district in which they apply.

Zoning Administrator - An official of the County appointed by the Chairman and confirmed by the County Commission, charged with the responsibility of administrating this ordinance.

## **ARTICLE 26**

## WIND ENERGY CONVERSION SYSTEMS (WECS)

#### Section 2601 Definitions

For the purposed of this ordinance, certain terms and words are hereby defined.

Aggregate Project shall mean projects that are developed and operated in a coordinated fashion, but which have multiple entities separately owning one or more of the individual WECS within the larger project. Associated infrastructure such as power lines and transformers that service the facility may be owned by a separate entity but are also part of the aggregate project.

<u>Commercial WECS</u> shall mean a wind energy conversion system of equal to or greater than 100kWh in total nameplate generating capacity.

<u>Construction</u> means any clearing of land, excavation, or other action that would adversely affect the natural environment of the site or route but does not include changes needed for temporary use of sites or routes for non-utility purposes, or uses in securing survey or geological data, including necessary borings to ascertain foundation conditions.

<u>Fall Zone</u> shall mean the area, defined as the furthest distance from the tower base, in which a tower will collapse in the event of a structural failure.

<u>Feeder Line</u> shall mean any power line that carries electrical power from one or more wind turbines or individual transformers associated with individual wind turbines to the point of interconnection with the project distribution system, in the case of interconnection with the high voltage transmission systems the point of interconnection shall be the substation serving the wind energy conversion system.

<u>High voltage transmission line</u> means a conductor of electric energy and associated facilities.

Large electric power facilities mean high voltage transmission lines.

<u>Meteorological Tower</u> shall mean, for purposes of this regulation, a tower which is erected primarily to measure wind speed and directions plus other data relevant to sitting a Wind Energy Conversion System. Meteorological towers do not include towers and equipment used by airports, the South Dakota Department of Transportation, or other applications to monitor weather conditions.

<u>Person</u> shall mean an individual, partnership, joint venture, private, or public corporation, association, firm, public service company, cooperative, political subdivision, municipal corporation, government agency, public utility district, or any other entity, public or private, however organized.

<u>Route</u> means the location of a high voltage transmission line between two end-points. The route may have a variable width of up to 1.25 miles.

Rotor Diameter shall mean the diameter of the circle described by the moving rotor blades.

Rotor Radius shall mean one half (1/2) the diameter of the moving rotor blade.

<u>Substations</u> shall mean any electrical facility to convert electricity produced by wind turbines to a voltage greater than 35,000 KV for interconnection with high voltage transmission lines.

<u>WECS Total Height</u> shall mean the highest point, above ground level, reached by a rotor tip or any other part of the Wind Energy Conversion System.

<u>WECS Tower</u> shall mean the vertical structures that support the electrical, rotor blades, or meteorological equipment.

<u>Transmission Line</u> shall mean the electrical power lines that carry voltages of at least 69,000 volts (69 KV), and are primarily used to carry electric energy over medium to long distances rather than directly interconnecting and supplying electric energy to retail eustomers.

<u>Utility</u> shall mean any entity engaged in this state in the generation, transmission or distribution of electric energy including, but not limited to, a private investor owned utility, cooperatively owned utility, and a public or municipally utility.

<u>Small Wind Energy Conversion System</u> shall mean a wind energy conversion system consisting of a Horizontal-Axis Wind Turbine (HAWT), a Vertical-Axis Wind Turbine (VAWT), which may include a tower, and associated control or conversion electronics, which has a rated capacity of not more than 100 kWh and, which is primarily intended to reduce on site consumption of utility power.

<u>Large Wind Energy Conversion System (WECS)</u> shall mean an electrical generating facility comprised of one or more wind turbines and accessory facilities, including but not limited to: power lines, transformers, substations and meteorological towers that operate by converting the kinetic energy of wind into electrical energy. The energy may be used on-site or distributed into the electrical grid.

<u>Wind Turbines</u> shall mean any piece of electrical generating equipment that converts the kinetic energy of blowing wind into electrical energy using airfoils or similar devices to capture the wind.

## **Small Wind Energy Conversion Systems (WECS)**

#### Section 2602 Intent

It is the intent of this Section to promote the safe, effective, and efficient use of small wind energy conversion systems installed to reduce the on-site consumption of utility supplied electricity.

## Section 2603 Requirements

Small wind energy conversion systems shall be considered as a Conditional Use Permit with an exemption provided in 1. i. in this ordinance.

#### 1. Requirements as set forth below shall be met:

- a. The maximum height of a rooftop mounted WECS, including the turbine blades, is ten (10) feet in height above the roof line of the structure.
- b. High Density Rural Residential District (R3) shall allow rooftop mounted WECS only.
- c. Moderate Density Rural Residential District (R2) shall allow rooftop mounted WECS only.
- d. Low Density Rural Residential District (R1), meeting (or exceeding) district requirement of five (5) acre lots, shall have total WECS height limit of thirty (30) feet.
- e. Rural Transitional District (RT) shall allow rooftop mounted WECS only.
- f. Planned Unit Development (PUD), meeting (or exceeding) requirement of five (5) acre lots, shall have total WECS height limit of thirty (30) feet.
- g. Lakeside Commercial Districts (LC) shall allow rooftop mounted WECS only.
- h. Commercial District meeting (or exceeding) district requirements of one (1) acre shall have total WECS height limit of thirty (30) feet with exception provided in Section 2605.
- i. The Agriculture District (AG) may qualify for an administrative building permit meeting (or exceeding) district requirement of twenty (20) acre lots and shall have total WECS height limit less than eighty (80) feet. All other WECS in Agriculture District are provided in Section 2605.

#### 2. Setbacks

a. No part of the wind system structure may be sited closer to structures, property lines and/or right(s) of way than 1.1 times the height of the wind turbine measured from the ground surface to the tip of the blade when in a fully vertical position.

#### 3. Access

- a. Tower climbing apparatus located no closer than eight (8) feet from the ground
- b. A locking anti-climb device installed on the tower
- c. Enclosure of the tower by a fence at least six (6) feet high with locking portals, when climbing apparatus is less than eight (8) feet from the ground.

#### 4. Noise

- a. Small wind energy systems shall not exceed 55 dBA, measured at the closest point on the closest property line from the base of the system.
- b. The noise level may be exceeded during short-term events such as utility outages and/or severe windstorms.

## Approved Wind Turbines

a. Small wind turbines, horizontal-axis wind turbine (HAWT) or a vertical-axis wind turbine (VAWT), must have been approved under the Emerging Technologies program of the California Energy Commission or any other small wind certification program recognized by the American Wind Energy Association.

## 6. Compliance with Building and Zoning Codes

- a. Applications for small wind energy conversion systems shall be accompanied by standard drawings of the wind turbine structure, including the tower base, footings and required setbacks.
- b. An engineering analysis of the tower showing compliance with all electrical codes of the State of South Dakota certified by a professional engineer licensed and certified in South Dakota shall also be submitted.
- c. The manufacturer frequently supplies this analysis.

## 7. Compliance with FAA Regulations

a. Small wind energy conversion systems must comply with applicable FAA regulations, including any necessary approvals for installations close to airports.

#### 8. Compliance with National Electrical Code

- a. Permit applications for small wind energy conversion systems shall be accompanied by a line drawing of the electrical components in sufficient detail to allow for a determination that the manner of installation conforms to the National Electrical Code.
- b. The manufacturer frequently supplies this analysis.

#### 9. Utility Notification

- a. No small wind energy conversion system shall be installed until evidence has been given that the utility company has been informed of the customer's intent to install an interconnected customer owned generator,
- b. Off-grid systems shall be exempt from this requirement.

#### 10. Warning information

a. Information related to the maximum power output, nominal voltage and maximum current and emergency shut down procedures for the WECS shall be posted near the base of the tower in a visible location.

#### 11. Site Reclamation

- a. When a small WECS has been condemned or has fallen into obvious disrepair, or has become a violation of some other local, state, or federal law and/or is no longer able to operate or upon earlier termination of operation of the small WECS, the permittee shall have the obligation, at the permittee's sole expense, to dismantle and remove from the site all towers, turbine generators, transformers, overhead and underground cables, foundations, buildings and ancillary equipment within 120 days upon notification from the County.
- b. If deemed appropriate, the County may stipulate through the conditional use that the small WECS shall be removed at the owner's expense, upon the rezoning of the subject property to a zoning classification in which wind energy systems are not allowed as either a permitted use or a conditional use.

#### 12. Federal and State Requirements

a. All WECS shall meet or exceed standards and regulations of the Federal Aviation Administration and South Dakota State Statutes and any other agency of federal or state government with the authority to regulate WECS.

## **Large or Commercial Wind Energy Conversion Systems (WECS)**

#### Section 2604 Intent

It is the intent of this Section to promote the safe, effective, and efficient use of commercial/utility grade wind energy systems within Yankton County.

#### Section 2605 Requirements

Large or Commercial wind energy conversion systems shall be permitted as a Conditional Use Permit in the Agricultural District (AG) and in the Commercial District (C) only. Certain requirements as set forth below shall be met:

#### 1. Applicability

The requirements of these regulations shall apply to all WECS facilities, including private facilities, with a single tower height of greater than eighty (80) feet, rated capacity of more than 100 kWh and used primarily for off-site consumption of power.

## 2. Federal and State Requirements

All WECS shall meet or exceed standards and regulations of the Federal Aviation Administration and South Dakota State Statutes and any other agency of federal or state government with the authority to regulate WECS.

#### 3. Mitigation Measures

- a. Site Clearance. The permittees shall disturb or clear the site only to the extent necessary to assure suitable access for construction, safe operation, and maintenance of the WECS.
- b. Topsoil Protection. The permittees shall implement measures to protect and segregate topsoil from subsoil in cultivated lands unless otherwise negotiated with the affected landowner.
- c. Compaction. The permittees shall implement measures to minimize compaction of all lands during all phases of the project's life and shall confine compaction to as small an area as practicable.
- d. Livestock Protection. The permittees shall take precautions to protect livestock during all phases of the project's life.
- e. Fences. The permittees shall promptly replace or repair all fences and gates removed or damaged during all phases of the project's life unless otherwise negotiated with the affected landowner.
- f. Roads: Public Roads. Prior to commencement of construction, the permittees shall identify all state, county or township "haul roads" that will be used for the WECS project and shall notify the state, county or township governing body having jurisdiction over the roads to determine if the haul roads identified are acceptable. The governmental body shall be given adequate time to inspect the haul roads prior to use of these haul roads. Where practical, existing roadways shall be used for all activities associated with the WECS. Where practical, all-weather roads shall be used to deliver concrete, turbines, towers, assemble nacelles and all other heavy components to and from the turbine sites. The permittees shall, prior to the use of approved haul roads, make satisfactory written agreements with the appropriate state, county or township governmental body having jurisdiction over approved haul roads for construction of the WECS for the maintenance and repair of the haul roads that will be subject to extra wear and tear due to transportation of equipment and WECS components. The permittees shall provide the County Zoning Administrator with such written agreements.

<u>Turbine Access Roads</u>. Construction of turbine access roads shall be minimized. Access roads shall be low profile roads so that farming equipment can cross them and shall be covered with material that meets or exceeds South Dakota D.O.T. specifications for aggregate base course. When access roads are constructed across streams and drainage-ways, the access roads shall be designed in a manner so runoff from the upper portions of the watershed can readily flow to the lower portion of the watershed.

<u>Private Roads</u>. The permittees shall promptly repair private roads or lanes damaged when moving equipment or when obtaining access to the site, unless otherwise negotiated with the affected landowner.

<u>Control of Dust</u>. The permittees shall utilize all reasonable measures and practices of construction to control dust.

#### 4. Soil Erosion and Sediment Control Plan

The permittees shall develop a Soil Erosion and Sediment Control Plan prior to construction and submit the plan to the County Zoning Administrator. The Soil Erosion and Sediment Control Plan shall address the erosion control measures for each project phase, and shall at a minimum identify plans for grading, construction and drainage of roads and turbine pads; necessary soil information; detailed design features to maintain downstream water quality; a comprehensive re-vegetation plan to maintain and ensure adequate erosion control and slope stability and to restore the site after temporary project activities; and measures to minimize the area of surface disturbance. Other practices shall include containing excavated material, protecting exposed soil, stabilizing restored material, and removal of silt fences or barriers when the area is stabilized. The plan shall identify methods for disposal or storage of excavated material. A storm water runoff permit, if required, shall be obtained from the South Dakota D.E.N.R.

#### 5. Setbacks

- a. Wind turbines shall meet the following minimum spacing requirements.
  - i. Distance from existing off-site residences, business and public buildings shall be one thousand three hundred and twenty feet (1,320) feet. Distance from on-site or lessor's residence shall be one thousand (1,000) feet.
  - ii. Distance from right-of-way (ROW) of public roads shall be 500 feet or one point one (1.1) times the height of the wind turbines depending upon which is greater, measured from the ground surface to the tip of the blade when in a fully vertical position.
  - iii. Distance from any property line shall be 500 feet or one point one (1.1) times the height of the wind turbines depending upon which is greater, measured from the ground surface to the tip of the blade when in a fully

vertical position unless wind easement has been obtained from adjoining property owner.

## 6. Electromagnetic Interference

The permittees shall not operate the WECS so as to cause microwave, television, radio, or navigation interference contrary to Federal Communications

Commission (FCC) regulations or other law. In the event such interference is caused by the WECS or its operation, the permittees shall take the measures necessary to correct the problem.

## 7. Lighting

Towers shall be marked as required by the Federal Aviation Administration (FAA). There shall be no lights on the towers other than what is required by the FAA. This restriction shall not apply to infrared heating devices used to protect the monitoring equipment.

#### 8. Access

a. Tower climbing apparatus shall be located no closer than twelve (12) feet from the ground unless locking anti-climb device is installed on the tower.

## 9. Turbine Spacing

The turbines shall be spaced no closer than three (3) rotor diameters (RD) measurement of blades tip to tip. If required during final micro siting of the turbines to account for topographic conditions, up to 10 percent of the towers may be sited closer than the above spacing but the permittees shall minimize the need to site the turbines closer.

## 10. Footprint Minimization

The permittees shall design and construct the WECS to minimize the amount of land that is impacted by the WECS. Associated facilities in the vicinity of turbines such as electrical/electronic boxes, transformers, and monitoring systems shall to the greatest extent feasible be mounted on the foundations used for turbine towers or inside the towers unless otherwise negotiated with the affected landowner.

#### 11. Electrical Cables

The permittees shall place electrical lines, known as collectors and communication cables underground when located on private property. Collectors and cables shall also be placed within or immediately adjacent to the land necessary for turbine access roads unless otherwise negotiated with the affected landowner. This paragraph does not apply to feeder lines.

#### 12. Feeder Lines

The permittees shall place overhead electric lines, known as feeders, on public rights of way if a public right of way exists. Changes in routes may be made as long as feeders remain on public rights of way and approval has been obtained from the governmental unit responsible for the affected right-of-ways. If no public right-of-way exists, the permittees may place feeders on private property. When placing feeders on private property, the permittees shall place the feeder in accordance with the easement negotiated with the affected landowner. The

permittees shall submit the site plan and engineering drawings for the feeder lines before commencing construction.

#### 13. Decommissioning/Restoration/Abandonment/Removal Bond

## a. Decommissioning Plan

Within 120 days of completion of construction, the permittees shall submit to the County Zoning Administrator a decommissioning plan describing the manner in which the permittees anticipate decommissioning the project in accordance with the requirements of paragraph (b) below. The plan shall include a description of the manner in which the permittees will ensure that it has the financial capability to carry out these restoration requirements when they go into effect. The permittees shall ensure that it carries out its obligation to provide for the resources necessary to fulfill these requirements. The County Zoning Administrator may at any time request the permittees to file a report with the County Zoning Administrator describing how the permittees are fulfilling this obligation.

#### b. Site Restoration

Upon expiration of this permit, or upon earlier termination of operation of the WECS, the permittees shall have the obligation to dismantle and remove from the site all towers, turbine generators, transformers, overhead and underground cables, foundations, buildings, and ancillary equipment to a depth of four feet. To the extent possible, the permittees shall restore and reclaim the site to its preproject topography and topsoil quality. All access roads shall be removed unless written approval is given by the affected landowner requesting that one or more roads, or portions thereof, be retained. Any agreement for removal to a lesser depth or for no removal shall be recorded with the County Zoning Administrator which shall show the locations of all such foundations. All such agreements between the permittees and the affected landowner shall be submitted to the County Zoning Administrator prior to completion of restoration activities. The site shall be restored in accordance with the requirements of this condition within eighteen (18) months after expiration.

#### c. Abandoned Turbines

The permittees shall advise the County Zoning Administrator of any turbines that are abandoned prior to termination of operation of the WECS. The County Zoning Administrator may require the permittees to decommission any abandoned turbine.

#### d. Performance Security

The Applicant and the owner of record of any proposed large or commercial Wind Energy Conversion System property site shall, at its cost and expense, be jointly required to execute and file with the County a bond, or other form of security acceptable to the County as to type of security and the form and manner of execution, in an amount of at least two (2) percent of the cost of the aggregate project for a WECS and with such sureties as are deemed sufficient by the County to assure the faithful performance of the terms and conditions of this Ordinance and conditions of any Conditional Use Permit issued pursuant to this Ordinance. The full amount of the bond or security shall remain in full force and effect throughout the term of the Conditional Use Permit and/or until any necessary site restoration is completed to restore the site pursuant to 9(a) (above.)

#### 14. Height from Ground Surface

The minimum height of blade tips, measured from ground surface when a blade is in fully vertical position, shall be twenty five (25) feet.

#### 15. Towers

- a. Color and Finish. The finish of the exterior surface shall be non-reflective and non-gloss.
- b. All towers shall be singular tubular design.

## 16. Noise

Noise level shall not exceed 60 dB, including constructive interference effects, measured at the closest point on the closest property line from the base of the system.

#### 17. Permit Expiration

All permits shall become void if no substantial construction has been completed within three (3) years of issuance.

#### 18. Required Information for Permit

- a. Boundaries of the site proposed for WECS and associated facilities on United States Geological Survey Map or other map as appropriate.
- b. Map of easements for WECS.
- c. Map of occupied residential structures, businesses, and public buildings within a 2-mile radius.

- d. Map of sites for WECS, access roads and utility lines.
- e. Location of other WECS in general area.
- f. Project schedule.
- g. Mitigation measures.

## 19. Technical Issues and Expert Review

WECS and equipment facilities may involve complex technical issues that require review and input that is beyond the expertise of County staff. The Zoning Administrator, Planning Commission, Board of Adjustment, and/or the County Commission may require the applicant to pay reasonable costs for a third party technical study of a proposed facility. Selection of expert(s) to review will be at the sole discretion of the County.

## Section 2601 Purpose

**Purpose -** It is the purpose of this Article to outline the requirements Yankton County has for wind energy conversion systems (WECS).

## **Small Wind Energy Conversion Systems (SWECS)**

## **Section 2603 Intent**

It is the intent of this Section to promote the safe, effective, and efficient use of small wind energy conversion systems (SWECS) installed to reduce the on-site consumption of utility supplied electricity.

## **Section 2605 Performance Standards**

SWECS shall be considered as a Conditional Use Permit. with an exemption provided in the Agricultural District, noted in A(i) below. The following provisions shall apply to all SWECS less than fifty (50) kilowatts alternating current (AC).

#### **Design Requirements.**

- A. Height and zoning restrictions as set forth below shall be met:
  - a. The maximum height of a rooftop mounted SWECS, including the turbine blades, is ten (10) feet in height above the roof line of the structure.
  - b. **High Density** Rural Residential District (R3) shall allow rooftop mounted SWECS only.
  - c. **Moderate Density** Rural Residential District (R2) shall allow rooftop mounted SWECS only.
  - d. **Low Density** Rural Residential District (R1), meeting (or exceeding) district requirement of five (5) acre lots, shall have total SWECS height limit of forty (40) feet.
  - e. **Rural Transitional** District (RT) shall allow rooftop mounted SWECS only.
  - f. Planned Unit Development (PUD), meeting (or exceeding) requirement of five

- (5) acre lots, shall have total SWECS height limit of forty (40) feet.
- g. Lakeside Commercial Districts (LC) shall allow rooftop mounted SWECS only.
- h. **Commercial** District meeting (or exceeding) district requirements of one (1) acre shall have total SWECS height limit of forty (40) feet with exception provided in Section 2605.
- i. The **Agricultural** District (AG) qualifies for an administrative building conditional use permit. The total SWECS height limit is thirty-five (35) feet for lots up to five (5) acres. Lots greater than five (5) acres receive an additional six and one-half (6.5) feet for each additional acre over five (5) acres not to exceed a total SWECS height limit of one hundred thirty-five (135) feet.

#### B. Setbacks

No part of the wind system structure may be sited closer to property lines and/or right(s)-of-way than 1.1 times the height of the wind turbine measured from the ground surface to the tip of the blade when in a fully vertical position.

## C. Access

Enclosure of the tower by a fence at least six (6) feet high with locking portals, when climbing apparatus is less than eight (8) feet from the ground.

## D. Noise

- a. Noise level shall not exceed forty-five (45) dBA, including constructive interference effects, measured at the closest point on the closest non-participating property line from the base of the system. The noise level shall not exceed 35 dBA at the nearest non-participating residence.
- b. The noise level may be exceeded during short-term events such as utility outages and/or severe windstorms.
- E. Compliance with Building and Zoning Codes

Applications for small wind energy conversion systems shall be accompanied by standard manufacturers' drawings of the wind turbine structure, including the tower base, footings and required setbacks.

F. Compliance with Federal Aviation Administration (FAA) Regulations

Small wind energy conversion systems must comply with applicable FAA regulations, including any necessary approvals for installations close to airports.

G. Compliance with National Electrical Code

All small wind energy systems shall comply with requirements per the current adopted edition of the National Electric Code (NEC).

## H. Utility Notification

- a. No small wind energy conversion system shall be installed until evidence has been given that the utility company has been informed of the customer's intent to install an interconnected customer-owned generator.
- b. Off-grid systems shall be exempt from this requirement.

## I. Warning Information

Information related to the maximum power output, nominal voltage and maximum current and emergency shut-down procedures for the SWECS shall be posted near the base of the tower in a visible location.

#### J. Site Reclamation

- a. When a SWECS has been condemned or has fallen into obvious disrepair or has become a violation of some other local, state, or federal law and/or is no longer able to operate, the permittee shall have the obligation, at the permittee's sole expense, to dismantle and remove from the site all towers within 120 days upon notification from the County.
- b. If deemed appropriate, the County may stipulate through the conditional use that the small SWECS shall be removed at the owner's expense, upon the rezoning of the subject property to a zoning classification in which wind energy systems are not allowed as either a permitted use or a conditional use.

## **Conditional Use Permit Application Requirements for SWECS.**

The following information shall be submitted for the consideration of a SWECS Conditional Use Permit:

- A. The applicants', owners', managers', management company's or similar entities' name, address and telephone number.
- B. A legal description of the site(s) and proposed 911 address(es) for the location(s).
- C. Site diagram(s) depicting:
  - a. boundary of entire area included in permit, showing project acreage and property lines
  - b. location of existing area structures and their distances from the project to illustrate all Facility Setback Requirements are met
  - c. schematic location of wind towers, collector and feeder lines, electrical transmission lines and electrical interconnection points with the utility grid
  - d. proposed property and ROW setbacks of all structures from the exterior boundaries
  - e. fencing, lighting and signage locations
  - f. location and purpose of any existing underground pipelines and utility easements
- D. Federal Aviation Administration requirements, if applicable
- E. Utility notification confirmation

Such other information is deemed relevant and necessary by the Zoning Administrator.

## **Large Wind Energy Conversion Systems (LWECS)**

## **Section 2613 Intent**

It is the intent of this Section to promote the safe, effective, and efficient use of commercial/utility grade wind energy systems within Yankton County.

## **Section 2615 Performance Standards**

Large wind energy conversion systems (LWECS) with a rated capacity of 50 kW or more and tied to the public electrical grid for off-site consumption of power shall be permitted as a Conditional Use Permit in the Agricultural District (AG) and in the Commercial District (C)

only. Certain requirements as set forth below shall be met.

## **Design Requirements.**

## A. Federal and State Requirements

All LWECS shall meet or exceed standards and regulations of the Federal Aviation Administration, South Dakota State Statutes and any other agency of federal or state government with the authority to regulate LWECS.

## B. Mitigation Measures

- a. **Site Clearance**. The permittees shall disturb or clear the site only to the extent necessary to assure suitable access for construction, safe operation, and maintenance of the LWECS.
- b. Soil erosion/sedimentation. The permittees shall develop a Soil Erosion and Sediment Control Plan prior to construction and submit the plan to the County Zoning Administrator. The Soil Erosion and Sediment Control Plan shall address the erosion control measures for each project phase and shall at a minimum identify plans for grading, construction and drainage of roads and turbine pads; necessary soil information; detailed design features to maintain downstream water quality; a comprehensive re-vegetation plan to maintain and ensure adequate erosion control and slope stability and to restore the site after temporary project activities; and measures to minimize the area of surface disturbance. Other practices shall include containing excavated material, protecting exposed soil, stabilizing restored material, and removal of silt fences or barriers when the area is stabilized. The plan shall identify methods for disposal or storage of excavated material. A storm water runoff permit, if required, shall be obtained from the South Dakota D.A.N.R. All construction roadwork and site development work must meet national pollutant discharge elimination system (NPDES) permit requirements.
- c. **Compaction**. The permittees shall implement measures to minimize compaction of all lands during all phases of the project's life and shall confine compaction to as small an area as practicable.
- d. **Livestock Protection**. The permittees shall take precautions to protect livestock during all phases of the project's life.
- e. **Fences**. The permittees shall promptly replace or repair all fences and gates removed or damaged during all phases of the project's life unless otherwise negotiated with the affected landowner.
- f. **Drain Tile**. The permittees shall obtain maps of all known drain tile installations and, with the approval of the landowner, the permittees shall utilize construction methods that minimize the impacts to existing tile systems. The permittees are responsible for any damage.

## C. Lighting

Towers shall be marked as required by the Federal Aviation Administration (FAA). There shall be no lights on the towers other than what is required by the FAA. This restriction shall not apply to infrared heating devices used to protect the monitoring equipment. The preferred manner of lighting is by means of an Aircraft Detection Lighting System (ADLS). Subject to FAA approval, applicants

will install an ADLS within one (1) year of approval by FAA for the specified project. In the event FAA does not approve an ADLS system, the applicant will comply with all lighting and markings otherwise required by FAA.

#### D. Access

Tower climbing apparatus shall be located no closer than twelve (12) feet from the ground unless locking anti-climb device is installed on the tower.

## E. Tower Height Limit

Total tower height shall not exceed six hundred (600) feet.

## F. Turbine Spacing

The turbines shall be spaced no closer than three (3)-rotor diameters (RD) measurement of blades tip to tip. If required during final micro siting of the turbines to account for topographic conditions, up to 10 percent of the towers may be sited closer than the above spacing but the permittees shall minimize the need to site the turbines closer.

#### G. Footprint Minimization

The permittees shall design and construct the LWECS to minimize the amount of land that is impacted by the LWECS. Associated facilities in the vicinity of turbines such as electrical/electronic boxes, transformers, and monitoring systems shall to the greatest extent feasible be mounted on the foundations used for turbine towers or inside the towers unless otherwise negotiated with the affected landowner.

#### H. Electrical Cables

The permittees shall place electrical lines (at a minimum of three (3) feet deep or National Electrical Code whichever is greater,) known as collectors and communication cables underground when located on private property. Collectors and cables shall also be placed within or immediately adjacent to the land necessary for turbine access roads unless otherwise negotiated with the affected landowner. The depth must be approved by the landowner and location recorded on the filed easement. This paragraph does not apply to feeder lines.

#### I. Feeder Lines

The permittees shall place overhead electric lines, known as feeders, on public rights-of-way if a public right-of-way exists. Transmission lines may be placed per Board of Adjustment requirements which may include being buried. Changes in routes may be made as long as feeders remain on public rights-of-way and approval has been obtained from the governmental unit responsible for the affected right-of-ways. If no public right-of-way exists, the permittees may place feeders on private property. When placing feeders on private property, the permittees shall place the feeder in accordance with the easement negotiated with the affected landowner. The depth must be approved by the landowner and location recorded on the filed easement. The permittees shall submit the site plan and engineering drawings for the feeder lines before commencing construction. Electric lines installed with LWES should not be subject to Eminent Domain.

J. Height from Ground Surface

The minimum height of blade tips, measured from ground surface when a blade is in fully vertical position, shall be thirty (30) feet.

K. Color and Finish

The finish of the exterior surface shall be non-reflective and non-gloss.

L. Noise

Noise level shall not exceed 45 dBA, average A-weighted sound pressure including constructive interference effects, measured at the closest point on the closest non-participating property line from the base of the system. The noise level shall not exceed 35 40 dBA average A-weighted sound pressure at the nearest non-participating residence.

## **Facility Setback Requirements.**

LWECS shall be located no closer than the following regulations prescribe. The applicant(s) of a LWECS may request the required setback to any category listed in the table below be lessened. This request shall only be approved after the applicant obtains signed waivers from all property owners within the setback distance. Any authorized person, business or governmental entity that is within the setback distance may waive the setback distance. The written waiver(s) shall be permanently attached to the approved conditional use permit and shall be filed as a permanent encumbrance against the legally described parcel(s) for which the waiver is granted.

LWECS Facility Setback Chart		Feet
Residence, active church, business, schools and game production areas	Participating	1.5 times total height or 1000' whichever is greater
	Non-participating	1 2 miles
Municipalities		1 <del>2</del> miles
Lakes, Rivers and streams		1 mile
Right-of-way line (ROW)		1.5 times total height or 1000' whichever is greater
Property line	Participating	1.5 times total height or 1000' whichever is greater
	Non-participating	1 <del>2</del> miles
Pipelines and Utility infrastructure except Transmission and Feeder Lines		1.5 times total height

## Agreements and Studies.

A. Electromagnetic Interference

The permittees shall not operate the LWECS so as to cause microwave, television,

radio, or navigation interference contrary to Federal Communications Commission (FCC) regulations or other law. In the event such interference is caused by the LWECS or its operation, the permittees shall take the measures necessary to correct the problem.

## B. Flicker Analysis

A Flicker Analysis shall include the duration and location of flicker potential for all schools, churches, businesses and dwellings within a two (2) mile radius of each turbine within a project. The applicant shall provide a site map identifying the locations of shadow flicker that may be caused by the project and the expected durations of the flicker at these locations from sunrise to sunset over the course of a year. The analysis shall account for topography but not for obstacles such as accessory structures and trees. Flicker at any receptor shall not exceed thirty (30) hours per year within the analysis area. A Shadow Flicker Control System shall be installed upon all turbines which will cause a shadow effect upon an occupied residential dwelling. Exception: The Board of Adjustment may allow for a greater amount of flicker than identified above if the participating or non-participating landowners agree to said amount of flicker. If approved, such agreement shall be permanently attached to the approved conditional use permit and shall be filed as a permanent encumbrance against the legally described parcel(s) for which the waiver is granted.

## C. Endangered Species, Wetlands and Migration Analysis

Applicant must submit an inventory of any existing endangered wildlife, flora and fauna species and biologically sensitive areas and meet all South Dakota Department of Agricultural and Natural Resources (SD DANR) and South Dakota Game, Fish and Parks (SD GF&P) requirements. Applicant must examine landscape levels of key wildlife habitats, migration corridors, staging/concentration areas and breeding/brood-rearing areas to help develop general siting strategies. Applicant must situate turbines, so they do not interfere with wildlife movement corridors and staging areas.

#### D. Road Maintenance Agreements

a. *Public Roads*. Prior to commencement of construction and for any future LWECS repairs, the permittees shall identify all state, county or township "haul roads" that will be used for the LWECS project and shall notify the state, county or township governing body having jurisdiction over the roads to determine if the haul roads identified are acceptable. The governmental body shall be given adequate time to inspect the haul roads prior to use of these haul roads. Where practical, existing roadways shall be used for all activities associated with the LWECS. Where practical, all-weather roads shall be used to deliver concrete, turbines, towers, assemble nacelles and all other heavy components to and from the turbine sites. The turn radius for vehicles must be a consideration. The permittees shall, prior to the conditional use permit and the use of approved haul roads, make satisfactory written agreements with the appropriate state, county or township governmental body having jurisdiction over approved haul roads for construction of the LWECS for the maintenance and repair of the haul roads that will be subject to extra wear and tear due to transportation of equipment and LWECS components. These

- written agreements shall include all subcontractors. The permittees shall provide the Highway Superintendent and the County Zoning Administrator with such written agreements.
- b. *Turbine Access Roads*. Construction of turbine access roads shall be minimized. Access roads shall be low profile roads so that farming equipment can cross them and shall be covered with material that meets or exceeds South Dakota D.O.T. specifications for aggregate base course. When access roads are constructed across streams and drainage-ways, the access roads shall be designed in a manner so runoff from the upper portions of the watershed can readily flow to the lower portion of the watershed. The permittee(s) shall conduct hydrology studies and obtain all applicable permits including a Yankton County Drainage Board if required.
- c. *Private Roads*. The permittees shall obtain a written agreement for use of private roads following the guidelines for Public Roads above. The permittees shall promptly repair private roads or lanes damaged when moving equipment or when obtaining access to the site, unless otherwise negotiated with the affected landowner.
- d. *Control of Dust*. The permittees shall utilize all reasonable measures and practices of construction to control dust including the use of dust palliatives.
- E. Power Purchase Agreement

If the applicant has an executed power purchase agreement at the time of application, the applicant shall provide with the application either such agreement, or at the applicant's discretion, an affidavit of non-confidential information regarding such agreement.

F. Technical Issues and Expert Review

LWECS and equipment facilities may involve complex technical issues that require review and input that is beyond the expertise of County staff. The Zoning Administrator, Planning Commission, Board of Adjustment, and/or the County Commission may require the applicant to pay reasonable costs for a third-party technical study of a proposed facility. Selection of expert(s) to review will be at the sole discretion of the County.

G. Noise Study Post Construction

Requires wind farm developers to provide a post-construction certification that the project complies with the applicable codes, industry standards and ordinance requirements. A licensed, certified noise consultant shall conduct the study- and file with the Zoning Administrator.

## **Decommissioning**

- A. *Plan*: All applicants for a conditional use permit shall provide, with their site plan submission, a decommissioning plan.
  - a. The plan shall specify the procedure by which the applicant or its successor will remove all above-ground structures (including equipment, fencing, roads and foundations) down to a depth of no less than four (4) feet below grade and restore the area to its pre-construction condition. Removal of access roads, gates and fences will be at the discretion of the landowner. Any agreement for

- removal to a lesser depth shall be filed as a permanent encumbrance. against the legally described parcel(s) for which the waiver is granted.
- b. Disposal of structure and/or foundations shall meet the provisions and regulations of the South Dakota Department of Agriculture and Natural Resources (SD DANR) or the United States Environmental Protection Agency. No disposal of tower or equipment allowed on-site, all metal electronic components, blades and similar equipment, must be properly recycled and shipped off-site to a landfill for proper disposal.
- c. The plan will set forth a timeline for completing decommissioning once it is commenced.

#### B. Cost Estimate:

- a. The decommissioning plan shall include a decommissioning cost estimate prepared by a licensed professional engineer. The cost estimate will include a proposed timeline, not to exceed two (2) years, for completing the decommissioning process.
- b. The cost estimate shall provide the estimated cost of and schedule for decommissioning in accordance with the decommissioning plan and any other applicable conditions set by the County.
- c. The cost estimate and schedule above will be reviewed and analyzed by a third-party engineer of the County's choosing. The applicant or its successor shall compensate the County for any third-party review and analysis by an engineer of the initial cost estimate.
- d. The applicant or its successor shall update the decommissioning cost and schedule every five (5) years following approval of the conditional use permit and compensate the County for any review and analysis of each cost estimate and schedule revision by a licensed professional engineer.

#### C. Financial Resources:

- a. Fifty percent (50%) of the estimated decommissioning cost will be placed into an escrow account held by the County at the beginning of the LWECS construction phase. The balance of the decommissioning cost estimate will be guaranteed with a surety bond so as to cover one hundred percent (100%) of the estimated decommission costs-in an interest-bearing account.
- b. Each year after the beginning of the LWECS construction phase, the applicant or its successor will contribute an additional five percent (5%) of the most current cost estimate to the escrow account, allowing for the reduction of the surety bond by the same percentage not the obligation, to undertake decommissioning financed by the financial agreement required for a conditional use permit.
- c. Should the five-year (5) updated cost estimate increase, the applicant or its successor will increase the required escrow and surety bond combination as outlined above to meet the percentages for the given year. Amounts may be reduced, at the discretion of the County, Commission. if an updated cost estimate shows a decrease from the previous cost estimate.
- d. The County will credit interest to the escrow account.

D. *Notice to County*: The applicant or its successor shall provide six (6) months' written notice to the Zoning Administrator that it intends to commence the decommissioning process.

## E. Termination of Use:

- a. Decommissioning of turbines must occur in the event the LWECS is not in use for six (6) consecutive months with County Commission approval. At this time the applicant or its successor and/or landowner will have six (6) months to complete decommissioning in full accordance with the decommissioning plan.
- b. If the applicant or its successor and/or landowner fail to decommission the LWECS within six (6) months following commencement of decommissioning, the County has the right, but not the obligation, to undertake decommissioning financed by the financial agreement required for a conditional use permit. If the applicant or its successor, or the County incurs expenses in excess of the funds available for decommissioning, the County has the right to file a deficiency judgement against the land on which the LWECS stands. This deficiency judgment will be treated as a tax lien against the land and the landowner at the time decommissioning is complete. This tax lien will become due and payable in the year the deficiency is incurred by the County.
- c. The eCounty is granted the right to seek injunctive relief to effect and complete decommissioning, as well as to seek reimbursement from the applicant or its successor or the landowner for decommissioning costs against any real estate owned by applicant or its successor, or the landowner in which they have an interest and to take all steps allowed by law to enforce said lien. NOTE: The landowner is ultimately responsible and could have a Lien placed on their property should the applicant or its successor fail to fully remunerate the costs of decommissioning.
- F. *Liability insurance*: The applicant or its successor shall obtain and hold a general liability policy covering bodily injury and property damage and name Yankton County as an additional insured with limits of at least five million dollars (\$5,000,000.00) per occurrence and ten million dollars (\$10,000,000.00) in the aggregate with a deductible of no more than fifty thousand dollars (\$50,000.00). The applicant or its successor must provide proof of insurance to the Zoning Administration prior to construction.
- G. *Indemnity*: Applicant or its successor shall hold the County and its officers and employees harmless from claims made by applicant or its successor and third parties for damages sustained or costs incurred resulting from said LWECS project. The Applicant or its successor shall indemnify the County and its officers and employees for all costs, damages or expenses that the County may pay or incur in consequence of such claims, including attorney fees. Third parties shall have no recourse against the County under this agreement.

## **Conditional Use Permit Application Requirements.**

The following information shall be submitted for the consideration of a LWECS Conditional Use Permit:

A. The applicants', owners', managers', management company's or similar entities' name, address and telephone number.

- B. A legal description of the site(s) and proposed 911 address(es) for the location(s).
- C. Site diagram(s) depicting:
  - a. boundary of entire area included in permit, showing project acreage and property lines of all participating and non-participating landowners.
  - b. location of existing area structures and their distances from the project to illustrate all Facility Setback Requirements are met
  - c. points of access from public roadways
  - d. topography with contours at intervals of two (2) feet showing surface water drainage patterns
  - e. schematic location of wind towers, collector and feeder lines, electrical transmission lines and electrical interconnection points with the utility grid
  - f. internal access and maintenance roads and other accessory structures associated with the LWECS
  - g. proposed property and ROW setbacks of all structures from the exterior boundaries
  - h. fencing, lighting and signage locations
  - i. location and purpose of any existing underground pipelines, utility easements and farmland tile drainage systems
- D. Soil erosion and sediment control plan during construction
- E. Federal Aviation Administration requirements, if applicable
- F. Flicker Study Analysis
- G. Inventory of endangered species and wetlands
- H. A signed Roadway Maintenance and Haul Agreement with State, County, and/or Township authority approval
- I. Power Purchase Agreement
- J. Any third-party technical studies requested by the County.
- K. Noise study post construction (attached to the CUP after completed)
- L. Decommissioning plan
- M. Liability insurance policy
- N. Indemnification of County and its officers and employees

Such other information is deemed relevant and necessary by the Zoning Administrator.

## **Permit Expiration**

All permits shall become void if no substantial construction has been completed within three (3) two (2) years of issuance.

# Section 2917 Conditional Use Permit for an LWECS Not Permitted if Applicant Applies for the Permit for the Purpose of Selling, Transferring, or Brokering.

The Board of Adjustment shall not grant a Conditional Use Permit for an LWECS if the applicant is applying for the Permit for the purpose of selling, transferring, or brokering the Permit.

For the purposes of this Ordinance, any sale or transfer of the Permit from the applicant to any

other person or entity within five (5) years of the date that the Permit is issued shall be considered to be prima facie evidence that such Permit was obtained for the purpose of selling, transferring or brokering the Permit., except that no transfer to an affiliated or subsidiary entity of the applicant, or its parent company, or to a third party with which applicant has entered into a Power Purchase Agreement will be considered a sale or transfer of the permit under this section. The Board of Adjustment may hear and grant exceptions to this rule in the case of unforeseen life events that may force the sale of an operation.

Any evidence that is presented by any person that any Building Permit and/or Conditional Use Permit for an LWECS was sought for the purpose of selling, transferring, or brokering the Permit shall be considered by the Zoning Administrator, Planning Commission, and/or Board of Adjustment in considering a new application for Conditional Use Permit. It may be the basis for a denial or revocation of the application, building permit, and/or a conditional use permit by the Board of Adjustment.

> Wind Turbine Proposal Re:

Dear County Commissioners:

I have been asked to represent a group of persons who will not have wind turbines near their farms.

These are basically disabled people and nonparticipating residents of Yankton County, who have demanded a 5-mile setback for turbines and cables and a ban on industrial wind. The proposed Article 6 of the Joint Task Force findings included protections for nonparticipating residents of Yankton County, including but not limited to:

- 35 decibel maximum sound from wind turbines and operations at the project property lines of the nonparticipating farmers;
- Two-mile setbacks for turbines and cables to property lines on participants or five mile setback for nonparticipating taxpayers; and
- Tower heights limited to 600 feet.

People with disabilities or medical conditions include those with Parkinson's disease, traumatic brain injury (TBI), post-traumatic stress disorder (PTSD), epilepsy, anxiety and mental illness.

The setbacks are necessary as the repetitive mechanical sound vibrations from the wind towers, along with the flickering and blinking lights, could all exacerbate the medical conditions outlined or trigger symptoms.

Setbacks and noise limits are required for them to continue enjoying use of their property and beloved spaces. It is my understanding from the initial research, to date that people of Yankton County, in overwhelming numbers, have made their requests for protection of nonparticipating residents.

Samp Law Office Yankton County Commission Re: Wind Turbine Proposal 21 August 2024 Page 2

I understand the Task Force thoroughly evaluated industrial wind. They deem protections for nonparticipating residents as essential. I view it as a property right guaranteed by the United States and South Dakota Constitutions.

The Yankton County Planning and Zoning concurred and passed Article 26 with protections for nonparticipating residents.

If the Yankton County Commissioners were to remove those protections, they could open the taxpayers to damages. The wind company is likely to face legal challenges on federal and state constitutional grounds of inverse condemnation, Americans with Disabilities Act (ADA) violations, and other federal laws.

I intend to make a follow-up appearance on this, but would request your schedule so I can do so.

Thank you.

## YANKTON COUNTY COMMISSION MEETING

August 20, 2024

The regular meeting of the Yankton County Commission was called to order by Chairman John Marquardt at 6:00 p.m. on Tuesday, August 20, 2024.

Roll call was taken with the following Commissioners present: Dan Klimisch, Don Kettering, Wanda Howey-Fox, Ryan Heine and John Marquardt.

There were no conflicts of interest reported by Commissioners.
