

Notice is hereby given that Yankton County absentee ballot voting has been suspended.

A typographical error has been identified in the ballot language for the Referendum: Road and Bridge Levy. The measure is correctly identified. However, the Yes or No voting block should state Resolution instead of Referendum.

In order to correct this typographical error, Yankton County will be recalling the affected ballots and will issue corrected ballots reflecting the intended language.

Voters who have already cast an affected ballot will be provided an opportunity to vote again using a corrected ballot.

Voters who have received an affected ballot should wait to receive the corrected ballot.

This notice is being provided to inform the public of the typographical error, the recall of the affected ballots, and the opportunity to cast a corrected ballot.

Notice will be provided when absentee ballot voting has been reinstated.
