

The City of Yankton has six (6) outdoor warning sirens. The Towns of Gayville, Volin, Irene, Lesterville, Mission Hill and Utica each have outdoor warning sirens.

Other outdoor warning siren locations include Lewis and Clark Boy Scout Camp; Riverside Acres off Richard Street; Gavins Point Tailswater Area; and two (2) are within Lewis and Clark Recreation Area.

While the Communities of Yankton County own and maintain the Outdoor Warning Siren system, Yankton County Emergency Management, in conjunction with the Yankton Dispatch Center, are responsible for activating the siren system should it be needed in case of a storm. While Outdoor Warning Siren is an important tool in public warning, they are not a substitute for personal preparedness. Weather radios, weather apps, and local media are also an important tool to receive the alert.
