Motion by Reinicke, second by Leighton, to approve the joint planning commission and county commission agenda of April 26, 2023. Motion carried.

WORK SESSION / DISCUSSION ON PROPOSED CHANGES TO ZONING ORDINANCE #06-44, AN ORDINANCE ESTABLISHING COMPREHENSIVE ZONING REGULATIONS FOR LAKE COUNTY, SOUTH DAKOTA, AND PROVIDING FOR THE ADMINISTRATION, ENFORCEMENT, AND ALL AMENDMENTS THERETO, IN ACCORDANCE WITH THE PROVISIONS OF CHAPTER 11-2, 1967 SDCL, AND AMENDMENTS THEREOF:

Todd Kays with First District gave a brief history of the work that has been done with our zoning ordinance over the past 14 years. In 2009, a comprehensive revision of the zoning ordinance was completed. Those ordinance revisions were referred to a public vote and were defeated in a special election. Approximately 5 years ago, staff and First District began to review a general template of the ordinance. Approximately 1 ½ years ago, staff, First District, former County Commissioner Aaron Johnson, and former Planning Commissioner Dale Thompson began to review the ordinance again and began making comprehensive revisions. Kays advised the boards they have the option to pass sections of the ordinance piecemeal or to pass the entire ordinance at once, and the general pros and cons of each option.

Kays advised that he would be giving a general overview of the sections in the ordinance, and then he would take questions about those individual sections. The boards reviewed the following articles: Article I: Short Title and Application; Article II: Definitions; Article III: Establishment of Districts; Article IV: Nonconforming Uses or Lots of Record; Article V: Appeals, Variance, and Conditional Uses; Article VI: Zoning Official; Article VII: Permits, Schedule of

Fees, Charges, and Expenses, Article VIII: Enforcement; Article IX: Amendments; and Article X: Legal Status Provisions.

Article I: There were no questions.

Article II: There were several questions and discussion about many definitions listed, including but not limited to the following: definition of adjacent property, applicant, cemetery, contingency plans, hazardous materials, leaks and spills, nonstandard uses, aggrieved person, Class V Injection Well, dwelling unit, lot types, REM, runoff control basin, solar energy, special permitted uses, structure, tower, and well.

Article III: There was a question and discussion about whether additional overlay districts, such as a mining overlay district might be appropriate. First District explained how that would work, but did not recommend it as it has the potential to create spot zoning issues, instead recommending that a special permitted use might be a better method to use. There was a discussion about whether the Chair must be the person that signs the official zoning map. First District advised that it is required by state law.

Article IV: There was a question about the discontinuance of a nonconforming use and the time period allowed for discontinuance. First District advised that those requirements are also in state law. First District discussed continuation of nonstandard uses.

Article V: There was discussion about the issues surrounding variances and conditional uses being heard before the Planning Commission and the Board of Adjustment. State law does not require that they be heard before both boards, and Lake County is only one of a handful of counties that are still doing this. First District advised that the County Commission could serve as the Board of Adjustment or a separate Planning Board could serve as the Board of Adjustment. Pros and cons of both options were discussed. There was a question and discussion about the notice requirements for variances and whether additional forms of notice (social media or signs) should be considered.

Article VI: There was a discussion about special permitted uses. No special permitted uses have been identified, but the framework is there. The Planning Commission could take that framework and work later on to identify those uses.

Article VII: There were no questions.

Article VIII: There were no questions.

Article IX: First District explained the four ways that amendments to the zoning district boundaries or regulations can be accomplished as well as whether or not those actions can be referred or appealed.

Article X: There were no questions.

First District assigned the two boards to review pages 59-187 and plan to meet again in the next few weeks. No specific date was set. First District will send CAO Gust their availability and a meeting will then be scheduled with the two boards.

ADDITIONAL TOPICS FOR DISCUSSION PROPOSED BY PLANNING COMMISSIONERS OR COUNTY COMMISSIONERS

CARBON DIOXIDE PIPELINE ORDINANCE AND REGULATIONS (PLANNING COMMISSIONER AARON JOHNSON)

Planning Commissioner Johnson requested that the County Commission direct the Planning Commission to draft an ordinance regulating carbon dioxide pipelines. Johnson had a 2-slide PowerPoint showing information about a CO₂ pipeline rupture in MS and NE Attorney Paul Blackburn's summary opinion on interstate pipeline preemption. Johnson also provided 3 handouts: a memo from Landowners for Eminent Domain Reform, an example of a last offer to purchase easement, and a letter from DeSmet Insurance. Johnson outlined the reasons why he

feels an ordinance is needed. Johnson advised that Attorney Blackburn has offered to help write an ordinance. Chair Wollmann asked First District to comment on the request. First District advised that up to this point, the County has never regulated anything underground through zoning. emphasized that caution should be taken before passing any ordinance and advised that it is when, not if, you will be sued. First District advised that the county talk to their insurance company to determine what coverage level will be provided and to visit with their attorney about their level of exposure. Chair Wollmann asked for State's Attorney Wendy Kloeppner's opinion. SA Kloeppner advised she agreed with everything that First District said. Commissioner Johnke advised he needed to leave the meeting due to a prior commitment, and that he would be recusing himself from any vote on a proposed pipeline ordinance. Recusal noted for the record. Commissioner Johnke left the meeting at 12:05 p.m. Planning Commissioner Johnson responded to First District's comments. Johnson advised that the costs of a lawsuit could be paid for through a coop with other counties. First District advised they needed to leave the meeting due to a prior commitment. Commissioner Reinicke asked that First District include a draft of a solar energy ordinance for the next meeting. First District left at 12:15 p.m. Planning Commissioner Johnson expressed interest in bringing sample ordinances to the next planning meeting and encouraged Commissioners to make a decision at this meeting to move forward. Commissioners Reinicke, Wollmann, Leighton, and Slaughter expressed that they wanted more time before making any decisions and requested that SA Kloeppner contact our insurance company. Commissioners directed CAO Gust to include this on the agenda for the next joint planning commission / county commission meeting.

ADJOURNMENT:

Motion by Reinicke, second by Leighton, to adjourn at 12:21 p.m. Motion carried. The next regular meeting of the Planning Commission will be on Wednesday, May 10, 2023 at 9:00 a.m. The next regular meeting of the County Commission will be on Tuesday, May 2nd, 2023 at 9:00 a.m.

PLANNING COMMISSION CALL TO ORDER AND ROLL CALL:

A quorum of the Planning Commission was not present at 9:00 a.m. Members present included Aaron Johnson and Adam Leighton. Planning Commissioner Johnson was invited to participate in an ex-officio capacity until a quorum was present.

COUNTY COMMISSION CALL TO ORDER AND ROLL CALL:

Chair Wollmann called the meeting to order at 9:14 a.m. Auditor Paula Barrick called roll call: Commissioners Corey Johnke, Adam Leighton, Deb Reinicke, Dennis Slaughter, and Kelli Wollmann all present. CAO/HRS Shelli Gust, SA Wendy Kloeppner, and First District Representatives Todd Kays and Luke Muller were also present.

PLEDGE OF ALLEGIANCE:

The Pledge of Allegiance was recited.

AGENDA APPROVED:

Motion by Reinicke, second by Leighton, to approve the joint planning commission and county commission agenda of May 30, 2023 with the removal of Carbon Dioxide Pipeline Ordinance and Regulations as the Commission does not want to move forward with an ordinance with the unknowns of too many issues. Motion carried.

First District advised Planning Commissioner Johnson that if a quorum of the Planning Commission was present that the Planning Commission could take action to place the removed item back on the agenda.

WORK SESSION / DISCUSSION ON PROPOSED CHANGES TO ZONING ORDINANCE #06-44, AN ORDINANCE ESTABLISHING COMPREHENSIVE ZONING REGULATIONS FOR LAKE COUNTY, SOUTH DAKOTA, AND PROVIDING FOR THE ADMINISTRATION, ENFORCEMENT, AND ALL AMENDMENTS THERETO, IN ACCORDANCE WITH THE PROVISIONS OF CHAPTER 11-2, 1967 SDCL, AND AMENDMENTS THEREOF:

Todd Kays with First District picked up the work session beginning on page 59-187.

Kays advised that he would be giving a general overview of the sections in the ordinance, and then he would take questions about those individual sections. The boards reviewed the following articles: Article XI: Zoning Districts; Article XII: General Requirements; and Article XIII: Concentrated Animal Feeding Operations. The following is not an exhaustive list of every item discussed but provides a summary of those topics which received specific attention.

Article XI: Zoning Districts

The board reviewed Section 1101. "A" Agricultural District. There were questions and discussion about the following topics: whether campgrounds were listed as a specific use, whether commercial storage units could be allowed in the Ag District, what exceptions fall under height regulations; and whether the covenant/waiver section should apply to all farms vs. CAFOs.

The board reviewed Section 1102. "CI" Commercial/Industrial District. There were questions and discussion about the following topics: temporary seasonal fireworks stands, area regulations, and the zoning impact if an asphalt road were to be turned to a gravel road.

The board reviewed Section 1103." LP-1" Lake Park District 1. There were questions and discussion about the following topics: the additional uses that were added, the larger

dimensions allowed for unattached structures, the location of fence regulations in the ordinance, accessory structures with living quarters, the request to add more clarity to how shouses are defined, and the schedule of regulations.

The board reviewed Section 1104. "LP-2" Lake Park District 2. There were questions and discussion about the following topics: LP-2 being a closed district and the new language for leased single family development.

The board reviewed Section 1105. "LP-3" Lake Park District 3. There were no specific questions.

The board reviewed former Section 1106. Fences in LP1, LP2, LP3 which have been moved to a separate section under general regulations.

The board reviewed Section 1107. "TD" Town District. There was discussion about the new uses which have been added to this section.

The board reviewed Section 1109. "PD" Planned Development District. There were questions and discussion about whether this section had been utilized in the past and whether the current regulations were working, whether the county enforces covenants, and how those planned developments are typically structured by the developer.

The board reviewed Sections 1108. Natural Resources District, 1110. Aquifer Protection Overlay District, 1111. Corridor Preservation Overlay District, and 1112. Flood Damage Prevention Overlay District. There were no specific questions. First District advised that FEMA flood maps are being updated and the flood damage prevention overlay district section will need to be amended after that process has been completed.

A short break was taken.

PLANNING COMMISSION CALL TO ORDER AND ROLL CALL:

Additional Planning Commissioners joined the meeting via Zoom. Chair Johnson called the meeting to order. Zoning Officer Carrie Schiernbeck called roll call: Planning Commissioners Aaron Johnson and Adam Leighton were personally present. Planning Commissioners Roger Albertson, Daniel Hansen, and Alan Schaefer were present via Zoom. Planning Commissioner Jodi Ackerman was present intermittently via Zoom.

AGENDA APPROVED:

Chair Johnson requested that Planning Commissioners to reconsider the agenda and place Carbon Dioxide Pipeline Ordinance and Regulations back on the agenda. Motion by Hansen, second by Alberson to approve the agenda with Carbon Dioxide Pipeline Ordinance and Regulations added. Ayes: Johnson, Albertson, Hansen, Schaefer. Nay: Leighton. Absent: Ackerman. Motion carried.

WORK SESSION / DISCUSSION RESUMED:

Article XII: General Requirements

The boards reviewed this article. Kays advised the boards that many of the changes in this article were form over substance.

There were questions and discussion about the following topics: screening, vision clearance on corner lots, manufactured and modular homes, shelterbelts, extended home occupations, shouses, wind energy and decommissioning, wireless communication towers, the right to farm notice, adult uses, private wind energy systems, target ranges, sand gravel operations, setbacks, accessory uses, campgrounds, pipeline structures, agribusiness, fences, manufactured home park standards, and solar energy.

Article XIII: Concentrated Animal Feeding Operations

Kays advised the boards that there were substantive changes made to this article. There were questions and discussion about the following topics: changes to the way animal units are

defined to include headcounts, the number of animal units required for each class of CAFO, manure management plans, graduated minimum setbacks for different classes, and how nonconforming CAFOS can rebuild after a catastrophic incident.

Kays advised the boards again that they have the option to pass sections of the ordinance piecemeal or to pass the entire ordinance at once, and the general pros and cons of each option. Kays advised that he will take all of the feedback and make some changes to the draft. A new draft will be provided to CAO Gust. First District believes one additional meeting should be held to discuss the new draft before any action is taken. First District will send CAO Gust their availability and a meeting will then be scheduled with the two boards.

ADDITIONAL TOPICS FOR DISCUSSION PROPOSED BY PLANNING COMMISSIONERS OR COUNTY COMMISSIONERS

OPTIONS / ACTION ITEMS FOR STRUCTURE AND MEMBERSHIP OF PLANNING COMMISSION, BOARD OF ADJUSTMENT, COUNTY COMMISSION; SDCL 11-2, 11-2-2, 11-2-3, 11-2-49, 11-2-50 (COUNTY COMMISSIONER KELLI WOLLMANN)

CAO Gust advised that Commissioner Wollmann had requested that First District outline the different ways that counties structure their boards. Kays advised that there are essentially 3 ways that it could be structure. The first option is that the County Commission wears all 3 hats – the Planning Commission, the Board of Adjustment, and the County Commission. Kays advised that approximately 5 of the counties in the First District that use this structure. The second option is that the Planning Commission could also sit as the Board of Adjustment, and that membership is different from the County Commission. There are approximately 5 counties in the First District that use this structure. The third option is that the Planning Commission has separate membership and reviews only plats, the comprehensive plan, and the ordinance, while the County Commission sits as the Board of Adjustment handles all variances and conditional uses. Kays advised that Lake County is an anomaly, currently having variances and conditional uses run through the Planning Commission to receive a nonbinding recommendation before they move forward to the Board of Adjustment. There was discussion about how the first option would remove procedural issues and make the process easier for the applicants. CAO Gust asked the boards to come back to the next meeting with their preference, as this would impact the way the administrative section of the ordinance is drafted.

CARBON DIOXIDE PIPELINE ORDINANCE AND REGULATIONS (PLANNING COMMISSIONER AARON JOHNSON)

Planning Commissioner Johnson provided two sample ordinances from Brown County and Moody County to the boards for consideration. Johnson also advised that Minnehaha County and Lincoln County were looking at ordinances. Johnson advised that protections could be put in place through an ordinance. Slaughter commented that there is a difference of opinion between the county's legal advice and pipeline opponents' legal advice. Johnson asked the board to get a second opinion from different legal counsel and stated they had a second opinion in the paper written by an attorney engaged through SDPAA. Johnson stated that opinion states that counties have the legal authority to determine location. Reinicke stated that she was on the fence but not interested in moving forward right now. Wollmann stated that counties are not in the business of regulating pipelines, that the federal government regulates pipelines, that this board does not have the knowledge to regulate pipelines, that they were elected by the people to do a job, that they had been advised by legal counsel, and that it is beyond the board's control. Hansen stated that the county needs to look at public protections, and that it would be a disservice to the public not to do so. Johnson stated that the federal government determines how a pipeline is built but it does not have any authority as to where a pipeline is built, and reiterated that the attorney hired by SDPAA says that counties may determine location.

Wollmann stated that the board needs to be objective, and that Johnson has lost all objectivity with regard to carbon dioxide pipeline issues. Wollmann stated she would like to see a motion that would put this subject to bed. Johnson addressed the minutes from the last meeting and asked SA Kloeppner whether she had contacted the county's insurance company about coverage. SA Kloeppner affirmed she had done so. Johnson wanted the information to be made public. SA Kloeppner declined. Reinicke questioned whether certain types of welders are just as dangerous as the pipeline. Wollmann reiterated that the federal government is equipped to make these decisions. Johnson stated that the most protection is needed for the county. Reinicke stated that they want to protect all of the county, but that this board does not want an ordinance and isn't ready to make a decision as the PUC hasn't even granted a permit yet. Johnson stated that if the permits are granted, it's too late. Johnke stated that not having an ordinance doesn't mean that the board doesn't care about the safety of Lake County residents. Slaughter referenced a public comment that was made to the board by Johnson at a previous meeting that the board was being Pontious Pilate, and that he didn't want to be called that. Wollmann stated that feelings and emotions shouldn't be a part of this discussion. Slaughter advised he was taking the legal advice of counsel and holding off on an ordinance. Reinicke stated she agreed with Slaughter. Johnke reiterated he would be recusing himself from a vote on this matter. Motion Reinicke, second Slaughter to postpone any action on a carbon dioxide pipeline ordinance and regulations. Ayes: Leighton, Reinicke, Slaughter, Wollmann. Recused: Johnke. Motion carried.

Ackerman asked how that impacts any further discussion by the Planning Commission. SA Kloeppner advised that with the directive from the Commission that any action on a carbon dioxide pipeline ordinance and regulations are postponed, the Planning Commission is precluded from sua sponte taking the matter up on its own, and it should not be added to Planning Commission agendas or discussed. SA Kloeppner advised that public comments may continue during the community comments portion of the meeting. Ackerman asked how that impacts applicants. CAO Gust advised that applicants may still apply for anything that is regulated by our zoning ordinance. But it was noted that there would be no agenda items relating to applications for permits/variances, etc., stemming from a pipeline that would come before the Planning Commission.

COMMUNITY COMMENTS:

Linda Rippentrop, Rita Brown, Betty Strom, and Lori Basler, representing themselves, each spoke as an opponent of the Summit Carbon Solutions pipeline. Charlie Scholl, representing himself, passed on making a public comment. Trevor Jones, representing Summit Carbon Solutions, passed on making a public comment.

ADJOURNMENT:

Motion by Leighton, second by Ackerman, to adjourn at 12:54 p.m. Motion carried. Motion by Reinicke, second by Slaughter, to adjourn at 12:55 p.m. Motion carried. The next regular meeting of the Planning Commission will be on Wednesday, June 14, 2023 at 8:00 a.m. The next regular meeting of the County Commission will be on Tuesday, June 6, 2023 at 9:00 a.m.

TOWNHALL MEETING

June 7, 2023

The Board of Lake County Commissioners met in special session on June 7, 2023 at 6 p.m. at the Hillside Restaurant for a townhall meeting to gather input from Lake County residents concerning finances regarding county roads. This townhall was during the Lake Madison Development Association's monthly meeting. Chair Wollmann called the meeting to order. Auditor Paula Barrick called roll call: Commissioner Corey Johnke, Commissioner Adam Leighton, Commissioner Deb Reinicke, Commissioner Dennis Slaughter, and Chair Kelli Wollmann all present. The Pledge of Allegiance was recited. CAO/HRS Shelli Gust was also present.

COMMUNITY COMMENTS: NONE

AGENDA APPROVED:

Motion by Reinicke, second by Leighton, to approve the special townhall meeting agenda of June 7, 2023. Motion carried.

TOWN HALL:

Commissioner Wollmann advised the public in attendance that the Commissioners had directed CAO Gust to prepare a presentation for the town hall, which would be followed by an opportunity for the public to ask questions, make public comments, and engage in a discussion with the Commission. Gust gave the presentation focused on county finances, revenues, and expenses; results of the county's pavement management study; and ways to generate additional revenues through an opt out or road and bridge levy. Commissioner Wollmann invited the public to ask questions or give comments. The Commission heard from and engaged in discussion with numerous citizens. The majority of the comments were focused on, if the board agrees to a road and bridge levy or an opt out, what benefits will the residents at Lake Madison directly receive. A portion of the Lake Madison Development District said they are being overlooked even though a large portion of revenue is generated for the county by their taxes. There were comments both for and against a proposed opt out or road and bridge levy. Madison Mayor, Roy Lindsay, told the attendees that even though a small portion of the Road & Bridge levy would come to the city of Madison, he is in favor of waiving that portion so Lake County would be able to use it to invest in Lake County roads. The public was also encouraged to take handouts with them and reach back out with any questions. No action was taken.

ADJOURNMENT:

Motion by Reinicke, second by Leighton, to adjourn at 7:44 p.m. Motion carried. The next regular meeting will be at 9 a.m. on Tuesday, June 20, 2023.

EDA GRANT:

Brooke Rollag, LAIC Executive Director, told the board LAIC has become aware of a first come, first served grant from the Economic Development Administration which will be used to construct a new street within the Lakeview Industrial Park. The proposed road would be from Industry Ave and extend south to the property line and west to 455th (Washington Ave). Rollag provided a map of the proposed street. At this time, LAIC is not requesting any funds from Lake County, just the county's status as a co-applicant. Motion by Reinicke, second by Slaughter, to participate as a co-applicant in the Economic Development Administration (EDA) Grant with co-applicant LAIC and primary applicant City of Madison for the proposed Industry Avenue/455th Ave project and authorize Shelli Gust, CAO, or Kelli Wollmann,

Chair, to execute any necessary documents on behalf of the county as the project moves forward.

Motion carried.

WELFARE/APPLICATION 23-08:

Carrie Schiernbeck, Welfare Director, presented welfare application 23-08. Motion by Reinicke, second by Leighton, to deny Application 23-08 based on the following findings and conclusions:

- 1) An Application for Assistance was received from Avera McKennan Hospital on June 5, 2023.
- 2) To assist the County in determining whether 23-08 is a medically indigent person that qualifies for county poor relief, a letter was sent to 23-08 on 06/05/2023 inviting 23-08 to make application for assistance. The County did not receive a response.
- 3) Based on the documentation provided by Avera McKennan to the County, the County finds that:
 - a. The guardians of 23-08 are presumed able to work.
 - b. Patient 23-08 is a newborn infant and parents/guardians failed to apply for medical insurance through the Department of Social Services of SD for Medicaid for pregnant women and their infants.
- 4) No evidence or documentation supporting that 23-08 is a medically indigent person that qualifies for county poor relief has been provided to the County.
- 5) The County is unable to determine whether 23-08 is a medically indigent person, as that term is defined in SDCL 28-13-1.3, or whether 23-08 qualifies for county poor relief under SDCL 28-13.

Motion carried.

SPECIAL MEETINGS REQUEST:

Dick Ericsson, Paul E Christiansen Trust Attorney, was present to discuss the plat that was tabled at the July 12th Planning & Zoning meeting. At that meeting the Planning board deferred the plat (Tract 1 & Tract 2 of Christiansen Trust Addition) due to concerns they had. Ericsson did not attend the July 12th Planning meeting as Zoning Officer Carrie Schiernbeck considered the plat had met all Lake County regulations. The sale of this property is taking place on July 21st and plat approval would need to occur before that date. Ericsson asked the board to reconsider the policy of allowing special meetings that may be needed and the applicant would pay the fee for the special meeting. Currently Lake County does not have a policy for a special meeting request. For the Paul E Christiansen Trust sale to take place, there would need to be a special meeting of the Planning and Zoning Board and a special Lake County Commission meeting before July 21st. Motion by Reinicke, second by Leighton, to change the County's policy on special meetings for zoning matters to allow the Zoning Officer, upon a showing of good cause, to schedule a special meeting of the Planning Commission for consideration of plats, variances, and conditional uses, with the applicant to pay a \$350 fee for the special meeting. Motion carried. Motion by Reinicke, second by Johnke, to direct Zoning Officer Carrie Schiernbeck to schedule a Special Meeting of the Planning Commission for consideration of the Plat of Tract 1 and Tract 2 of Christiansen Trust Addition for 8:00 a.m. on Thursday, July 20, 2023. Motion carried. Motion by Johnke, second by Slaughter, to direct CAO Shelli Gust to schedule a Special Meeting of the County Commission for consideration of the Plat of Tract 1 and Tract 2 of Christiansen Trust Addition for 8:15 a.m. on Thursday, July 20, 2023. Motion carried.

CU 23-07 Conditional Use application of City of Madison/Wayne & Dawn Bessman – Parcel #1 SE1/4 SW1/4, Section 31 of Concord Township (15000-10754-31320) and Parcel #2 Lot 2 Bessmans Sub Div Lot 4 Sec 31-107-54 (15100-10754-02010). Jameson Berreth, Madison City Administrator, was present to discuss the concerns the board raised at the August 15th meeting. The city intends to install fencing around the restricted use site cell to provide security for operations, contain debris, and keep the area separate from livestock. This fence will be approximately 1,556' long by 4' tall to surround the 3-acre cell. Berreth has been in contact with the Lake County Conservation District as to what kind and how many trees will be planted to help with keeping debris at a minimum. The city intends to plant four rows of trees along the entire east side of the property and along an area on the south. In regard to the road, the City would like to negotiate an agreement with the County following construction and then the City will improve or return the road to its condition prior to construction. Johnke asked if the Kleins (owner of the current RUS) have been approached about a land exchange. Berreth said the Kleins didn't seem receptive to that idea. Roy Lindsay, Madison Mayor, told the board the State of South Dakota has soil survey maps and the soil types to the proposed RUS are proper, the depth of the water level meets all qualifications, and rural water is available to water the trees that will be planted. Commissioner Reinicke recused herself from CU 23-07.

CAO Gust read the current CU restricted use guidelines. Motion by Albertson, second by Leighton, to approve CU 23-07 with the added conditions for screening and buffering (fencing/shelterbelt) and entrance/exit to the property (road haul agreement during construction) as outlined in Applicant's proposal and adopt the facts and findings listed in the staff report. Motion carried. CAO Gust requested the minutes reflect the decision of the Board of Adjustment in this matter and will be filed today in the Planning & Zoning Office, which serves as the county office of the Board of Adjustment for filing purposes. The decision will also be filed with the Auditor's Office. Motion by Leighton, second by Albertson, to authorize the Zoning Officer to sign the Zoning Certification for the City of Madison's Restricted Use Site. Motion carried.
