

# LAKE COUNTY APPLICATION FOR OCCUPANCY FOR UNDERGROUND CONSTRUCTION ON COUNTY ROADS RIGHT-OF-WAY

This becomes our permit when properly validated by a Lake County Official.

## A. Owner and Property Information

Date:		
Applicant Name:		
Address:		
Home Phone:	Cell:	
Application is made for underground construction of (describe proposed construction in county road right of way):		
Legal description of excavation site:		
Section:	Township:	Range:
Excavation Street Address: (number or street)		
Nearest intersecting street:		

## B. Description of Proposed Project

Type of work or intended usage:
Depth of excavation:
Tunneling or boring? (Yes or No):
Method of Installation:
Excavation Start Date:
Contact Person:

## C. Supplemental Information Required

The following information must be included as a supplement to each application:

- a. A map or sketch showing the location of the proposed under round construction.

1. The applicant will, at any time subsequent to placing the underground utility, and as long as the utility exists, and at his own expense, relay or reconstruct the utility as may become necessary to protect it from new grades or alignment, resulting from maintenance or construction operations by the county. The applicant agrees to do this promptly upon order by the county, without cost to the county. If the applicant is unable to comply promptly, the county may cause the work to be done, and the applicant will pay the cost thereof upon receipt of statement.

2. The applicant shall take all reasonable precautions, during the construction, to protect and safeguard the lives and property of the traveling public and adjacent property owners, and shall save harmless the county from any and all suits, actions, or claims of any kind or nature brought because of any injuries or property on account of the use or occupancy of the county road right-of-way.

3. The county will assume no responsibility for damages to the applicant's utility occasioned by any construction or maintenance operations on said county roads, subsequent to commencement of construction.

4. The applicant agrees, on unpaved roads, an open trench may be dug and the utility placed therein, and the trench back-filled over the utility. All back-filling of tunnels and trenches shall be thoroughly compacted to the original density. Back-filling of trenches within the right-of-way but not under the traveled roadway, will be tamped sufficiently to avoid settling, and all work shall be done in a workmanlike manner, and the ground left in a neat condition. On paved roads, lines may be placed by boring only; cutting of the pavement is not allowed. Waterlines shall be placed in casings to that the line may be removed for repair or replacement without disturbing the subgrade or base of road, also to prevent water leaks from eroding and penetrating the roadway. The casing shall be of adequate strength and of sufficient length, to extend eight feet beyond each edge of the surfaced roadway.

5. The applicant will be responsible for any repairs to the road subgrade and road surface resulting from placement or maintenance of such utility.

t, the undersigned, do hereby affirm the above statements are true and correct and agree to comply with the provisions of the regulations of Lake County and with the approved plans and specifications accompanying this application. The proposed work is authorized by the owner and authorization to enter the property for inspection is hereby given to authorized representatives of Lake County.
