County Commission
Lake County

RE: Approval of 2026 to 2030 Five-Year County Highway and Bridge Improvement Plan

I am pleased to inform you that your Five-Year County Highway and Bridge Improvement Plan is complete as submitted and is officially approved. A copy of the signed and dated Certification Form is attached for your records. Applications for the Bridge Improvement Grant Program can now be submitted for structures as listed in your approved Plan.

If you have any questions, please call me at 773-4256.

Sincerely,

A handwritten signature in blue ink that reads 'Noël Clocksin'.

CERTIFICATION FORM

The following text shall be included on the front cover of the County Highway and Bridge Improvement Plan:

Certification: As approved this 7th day of October, 2025

Lake County Commission

By: Adam Lightner
County Commission Chairperson pb

ATTEST:

Bill Olson
County Deputy Auditor

County Contact Person: Tim Tolley, County Highway Superintendent

Phone Number (605)256-7607

Email Address: lakehwy2@lake.sd.gov

Received by SDDOT on 10/14/25

Approved by SDDOT on 10/15/25

CHECKLIST OF REQUIREMENTS FOR PLAN AND ANNUAL UPDATE

 X Certification Form

Maps

 X Map including roadway classification and bridge locations (if DOT unaltered maps are used at public meeting and are not attached, check here)

 X Map showing Five-Year Programmed Project locations from the Programmed Project Listing

Inventory Lists

 X Highways: include location and surface type (a map is acceptable; if DOT unaltered maps are used at public meeting and are not attached, check here)

 X Bridges: include location, sufficiency rating, and actual load limits if posted

 X Projected Revenue Available per year

 X 5-year Project List (Programmed Projects)

 X Project Status List

 X Township coordination letters/notice (sample letter and mailing list is acceptable)

 X Attendance list from public meeting (all attendees – not just commission members)

 X Public Comments (if no comments are received, clearly indicate that in the plan submittal)

Lake County Resolution of Adoption

What is the Five-Year County Highway and Bridge Improvement Plan?

Transportation planning is a cooperative process designed to foster involvement by all users of the system, such as the business community, community groups, the traveling public, freight operators and the general public through a proactive public participation process conducted by the county. The planning process also fosters communication of local governments such as townships, towns and larger cities to jointly discuss transportation needs and coordinate improvements.

The Lake County Five-Year County Highway and Bridge Improvement Plan (Plan) is a short-range planning document that will be developed and updated annually based on needs and identified Lake County transportation policies. The plan will include roadway classifications, roadway and bridge inventory, a five-year list of the projected revenue for highway and bridge improvements, a five-year list of programmed highway and bridge projects based on the projected revenue, and the status of programmed projects from the previous plan.

The Plan is to be used as a tool to assist the county in budgeting, planning and incorporating the needs and concerns of the public.

State Requirements

In 2015, the State established the local Bridge Improvement Grant fund. To be eligible for the funding, the county must have imposed a wheel tax and have an adopted transportation plan. The plan must be updated and submitted to the SDDOT annually by October 15 to maintain eligibility for the bridge grant funding.

Development of the Plan

Lake County developed this plan with assistance from the First District Association of Local Governments. Projects identified in the plan were generated from many sources including elected officials, studies, inventory management systems, local knowledge, staff members and other interested individuals and groups.

Once the programmed project list was developed, Township officials and the public were invited to a coordination/public meeting to provide an opportunity for public comment. That meeting was noticed in the Madison Daily Leader newspaper and held on September 23, 2025. Based on the results of the Township/public meeting and comments from the County Commission, a final version of the Plan was developed. This final version was then adopted by the County Commission on October 7, 2025.

What is included in the Plan?

The Plan includes the following information:

1. Map (See Appendix)

The following maps are included in the Appendix.

- **Inventory of Highways and Bridges**
- **Five-Year Project Location Map**
 - The Five-year Project Location Maps show the location proposed identified in the five-year programmed project list, including bridge projects, depaving projects, overlay projects, gravel road shoulder pulling projects, and chip seal projects.

2. Lists/Tables (See Appendix)

- **Project Needs List OPTIONAL (Conceptual estimates, detailed project scope has not been developed)**
 - To help in programming five years of projects, the County created a list of all the highway and bridge needs in the county. This list includes a project location, project description with an improvement type (reconstruction, maintenance, surfacing, structure replacement or rehabilitation) and a project estimate. Projects contained in the project needs list are organized according to project need based on input from public leaders, staff and the general public. The needs are ranked as high, medium or low priority. The needs list helps to show the public and elected officials the needs in the county, and the programmed projects will show what projects can be done with the funding available.
 - In developing the list of needs, the County considered traffic generators such as schools, grain terminals, large dairies, ethanol plants, etc. and the impacts from the traffic generators. The County also considered safety issues. Examples of safety projects are narrow or non-existent shoulders, pavement markings, blind corners, sharp curves, steep side slopes and poor sight distance. The County also considered system needs such as preservation of existing facilities. Preventive maintenance is typically applied to pavements in good condition having significant remaining service life. As a major component of pavement preservation, preventive maintenance is a strategy of extending the service life by applying cost-effective treatments to the surface or near-surface of structurally sound pavements. Examples of preventive treatments include asphalt crack sealing, chip sealing, slurry or micro-surfacing, thin and ultra-thin asphalt overlays, concrete joint sealing, diamond grinding, dowel-bar retrofit, and isolated, partial and/or full-depth repairs.

- The needs list identifies problems or deficiencies and explores possible solutions.
- Some of the needs may be short-term, and some may be long-term. The long-term needs may require several projects in order to complete.
- **Project List (Includes planning level estimates based on a generally defined scope [Five-/Year Programmed Project List] and engineer's estimates based on actual preliminary design work [Design Phase])**
 - The Project List is based on projected revenue available. It includes project location, project description with improvement type, funding source(s) and a planning level or engineer's estimate.
 - The projects contained in the project list are organized according to programmed year and are based on needs and input from public leaders, staff and the public. The programmed projects will show what projects can be done with the funding available.
 - Portions of a project may be unfunded. A portion of the project cost planned for the five years included in the Plan may include grant funding which has been or will be applied for, but not yet approved.
 - Bridge Improvement Grants include Preliminary Engineering Grants, Bridge Rehabilitation Grants and Bridge Replacement Grants.
 - Equipment is often a large portion of the transportation budget and is considered when evaluating project selections.
- **Projected Revenue Available (Five-year budget projection for highway and bridge program)**
 - The Plan projected revenue table identifies the amount of funds projected to be available for highway and bridge use over the next five years.
 - The table includes non-confirmed but potential revenue sources such as grant funds which may or may not have been applied and for which confirmation has not yet been received.
 - Planned expenditures for each project are summarized into funding categories. The funding categories reflect anticipated revenue sources.
- **Revenue Sources** – This includes the following types of funding categories:
 - **Local Funds**– The taxes levied portion of the revenue estimates includes a variety of funding sources, including wheel tax, property tax, motor vehicle licenses, etc.

- **Intergovernmental Revenue** – The Intergovernmental sources of revenue includes charges for services for townships and road districts.
- **State Funds** - These are any revenues from the state for highway purposes including Bridge Improvement Grants (BIG), Exchange for Surface Transportation Program (STP) Funds, Agri-Business Grants, etc.
- **Federal Funding** - Federal funding is available through various programs included in Federal transportation legislation. SDDOT administers most of these programs. They include Emergency Relief (ER), Federal Emergency Management Agency (FEMA), Surface Transportation Program Funds, Transportation Alternative Program (TAP), Safety funds, County-Wide Signing Projects, Congressionally Directed Spending (CDS), Economic Development Assistance (EDA), etc.
- **Other** – Miscellaneous funding sources include transfer of general funds, sale of surplus property, and others that do not fit into the categories above.
- **Project Status List**
 - The Project Status List is a review of the status of projects from the previous year.

SAMPLE OF COORDINATION LETTER SENT TO TOWNSHIP OFFICIALS

September 10, 2025

Pam Asmussen
Badus Township Clerk
22034 452nd Ave
Arlington, SD 57212

Township Supervisors:

The purpose of this letter is to make you aware that Lake County is in the process of creating its Five-Year County Highway and Bridge Improvement Plan (Transportation Plan). As required by South Dakota Department of Transportation, this letter is sent to notify the Lake County township supervisors that the Lake County Board of County Commissioners will discuss and receive public input on the development of the Transportation Plan at its meeting at 10:00 a.m. on Tuesday, September 23, 2025 in the Commissioners' Chambers at the Lake County Courthouse located at 200 East Center, Madison, SD. You are invited to review a draft of the Transportation Plan with specific reference to township road bridges which [is](#) available for you to review at the Lake County Auditor's Office, also located in the Courthouse, and provide comments regarding the Transportation Plan to the Lake County Auditor.

At the meeting on Tuesday, September 23, 2025, there will be an opportunity for comments on the Transportation Plan. Those comments will be included in the final draft of the Transportation Plan, projected to be considered by the Lake County Commissioners on October 7, 2025.

Sincerely,

Tim Tolley
Lake County Highway Superintendent

ABBREVIATED MINUTES/COMMENTS FROM PUBLIC MEETING

UNAPPROVED LAKE COUNTY COMMISSION MINUTES

Lake County 5-Year Transportation Plan Public Meeting September 23, 2025 10:00 a.m.

Attendees: Tim Tolley, Lake County Highway Superintendent, Charlie Johnson, representing himself, Barbara Strom, representing Orland Township, Luba Blyschik, representing Winfred Township, Matt Groce, representing KJAM radio, Wren Murphy, representing Madison Daily Leader newspaper, and the following Lake County Commissioners: Corey Johnke, Adam Leighton, Deb Reinicke, Dennis Slaughter, and Kelli Wollmann.

A brief description of the 5-year plan was presented with an overview of the following:

- Inventory of bridges and highways
- Location maps
- Project Needs List
- Project List based on Projected Revenue
- Projected Revenue Available
- Revenue Sources
- Project Status List
- Roadway Classification map
- Bridge Location map
- County Roads Inventory map
- Bridge Inspection map
- Chipseal map
- Pulling shoulders map
- AC Overlay map

Discussion followed.

No changes were made to the draft.

LAKE COUNTY RESOLUTION OF ADOPTION

RESOLUTION 2025-14 A RESOLUTION ADOPTING THE LAKE COUNTY FIVE-YEAR HIGHWAY AND BRIDGE IMPROVEMENT PLAN

WHEREAS, the South Dakota Department of Transportation Local Bridge and Improvement Grant Fund requires that to be eligible to apply for Bridge Improvement Grant funds, Counties are required to develop a five-year Highway and Bridge Improvement Plan, hereinafter referred to as Plan; and

WHEREAS, Lake County has utilized the South Dakota Department of Transportation, County Staff, the First District Association of Local Governments, Townships, and the general public in developing the various components of the Plan; and

WHEREAS, the Plan includes maps and lists identifying an inventory of highways and bridges, project needs, and revenue sources; and

WHEREAS, Lake County held a public meeting on September 23, 2025 to solicit input into the Plan, and the citizens who attended expressed an interest in the Plan; and

WHEREAS, the County will be able to use the Plan as a tool to budget for transportation enhancements and better coordinate transportation issues with other entities.

NOW, THEREFORE, BE IT RESOLVED BY THE LAKE COUNTY BOARD OF COUNTY COMMISSIONERS THAT THE LAKE COUNTY FIVE-YEAR HIGHWAY AND BRIDGE IMPROVEMENT PLAN IS HEREBY ADOPTED AND IS RECOGNIZED AS THE HIGHWAY AND BRIDGE IMPROVEMENT PLAN FOR LAKE COUNTY.

Dated at Madison, South Dakota this 7th day of October, 2025.

Voting aye: Johnke, Leighton, Reinicke, Slaughter, and Wollmann
