

Lake County Mental Health Board

Interest Application Form

The Mental Health Board consists of an attorney who is appointed by the Circuit Court and sits as the chair and two other persons appointed by the board of county commissioners to serve a term of 3 years. Any citizen of Lake County is eligible to be a member. Duties include: Jurisdiction over all applications or petitions for involuntary commitment, for the treatment of any involuntarily committed person, or for the safekeeping otherwise of any person subject to involuntary commitment within its county.

NOTE: This is a relatively inactive board as most hearings are conducted in other counties. However, the county would like to keep board positions filled in the rare event that a hearing may need to be conducted in Lake County.

Date Submitted: _____
