

Robert Miller Jr. Memorial Endowment Scholarship

The Robert Miller Jr Memorial Scholarship was established in 2022 by family members as a way to remember and honor Robert Miller, a former Madison High School educator and coach. He began teaching Biology I and Biology II in 1958, where he was affectionately known as "Bio Bob". He was the head boys cross country coach and started the girls cross country program in the fall of 1975. He later became the long distance coach for the MHS track team. He spent his entire teaching career at MHS, retiring in 1992.

Applicant must be pursuing degree in Science with preference going to those with a Biology major. Because of Bob's dedication to education, preference will also be given to an applicant choosing a degree in education.
