# BEYOND WORDS

**Beyond:** meaning outside the understanding, limits, or reach of. **Words:** meaning a unit of language, consisting of one or more spoken sounds. When we were little, we were taught words and at the beginning they were not in any order, just that our parents wanted us to say something. Then as we got older, we began to slowly speak in torn sentences, and with practice we've learned to speak really well, and some even in different languages.

One thing we weren't taught was our limits. We were taught to go for the next step. Nothing was ever out of our understanding or out of our reach and we have our teachers to thank for that. Through four years of high school, you have had a lot of different teachers, but remember everyone is looking up to someone.

Seniors, you have already crossed your limits and have set new goals for yourselves and everyone wishes the best to you. Juniors, you're starting to make new goals for yourselves. You're realizing that after high school everything changes and now you have one more year to make your mark, to be remembered for the rest of forever. Sophomores, you're just here for the fun, but as you go, remember the upcoming freshman will be looking up to you. Freshman, you overcame a big fear – starting high school. As you proceed with your future, don't forget all the fun times you've had and don't change who you are.

Now as we go on with our lives it comes down to a "thank you" that was never said, but is heard echoing through the halls after every year. It's a "thank you" to every teacher, everyone on staff and even to the students. So as you go on with your life remember those who have helped you get to where you are or may be going.

of things themselves.*

# Germany Anyone????

*"When I find myself fading, I close my eyes and realize my friends are my energy."*

*~~Anon~~*

Have you ever wished you could travel to a different country and see the differences in culture and customs? Well one of our seniors, Caitie Parsley, did and I was lucky enough to talk to her about what she experienced.

Caitie spent six months in Germany. While in Germany she got to experience the food, different sites, and German schools. Ironically she stayed with Sophia Pape, who stayed with Caitie and her family when she came to Madison for the 2004 school year. In the summer of 2004, Caitie went to visit Sophia's family. She loved them and wanted to spend more time with them. "They were so great to me! I couldn't have had such a great time if it wasn't for them" Caitie said. So they arranged the chance of a lifetime for Caitie to become an exchange student. Caitie was able to learn the language and a lot of their customs.

I asked her how school was different in Germany compared to Madison? "Their high school is more like a college system. No lunch period and lots of open periods, and a different schedule for each day of the week and much harder tests and classes" Caitie said.

While Caitie was in Germany, the world cup soccer tournament was in progress. Just like Americans during the Super Bowl, everyone watches soccer and goes to soccer parties. Other places that Caitie visited

while over in Europe were Paris, Bavaria, Sylt, and all over Germany. Caitie and Sophia were able to travel alone to many of the places, but occasionally the whole family went. "Parents are more trusting of their kids over there."

With going to a different country you get to try so many different things. One of her favorite foods was the bakery goods, mostly their Schoko Croissant. "It was amazing!!" And of course there are always memories that will never be forgotten. Her favorite memory was when "her parents came to visit and see where and how she's been living for the past six months."

She just recently had contact with her host family. They sent her flowers and an email for her graduation, and she also has an international texting plan and texts them all the time!

Next year Caitie plans on going to the University of Nebraska Lincoln, and is planning to major in Political Science and International Affairs. With her busy schedule she won't get the time to visit Germany again, but does plan to do so in the near future.
